# Powerful Contact Management in the Palm of Your Hand

Having access to your client contacts at all times is critical. Deep integration links between MLS-Touch and Matrix allow you to access the same list of contacts from both apps. *

You can add/edit contacts through either platform and the changes will automatically sync with the other, creating time-saving efficiencies and eliminating duplicate data entry.

For a contact to sync, it must have a first name, last name, and email address. If you have two entries for a client, each with a unique email, MLS-touch will import as two unique contacts.

All Client Activities Tracked and Managed in Your Mobile App

Clients love to search on their own and keep track of the properties they like. They also want an easy collaboration process to share that information with you. With MLS-Touch, when your client favorites a listing in either their Client Portal or their mobile app, it is automatically available to them in both platforms. When you suggest a listing, it's instantly available to view in the Portal and their mobile app too. *
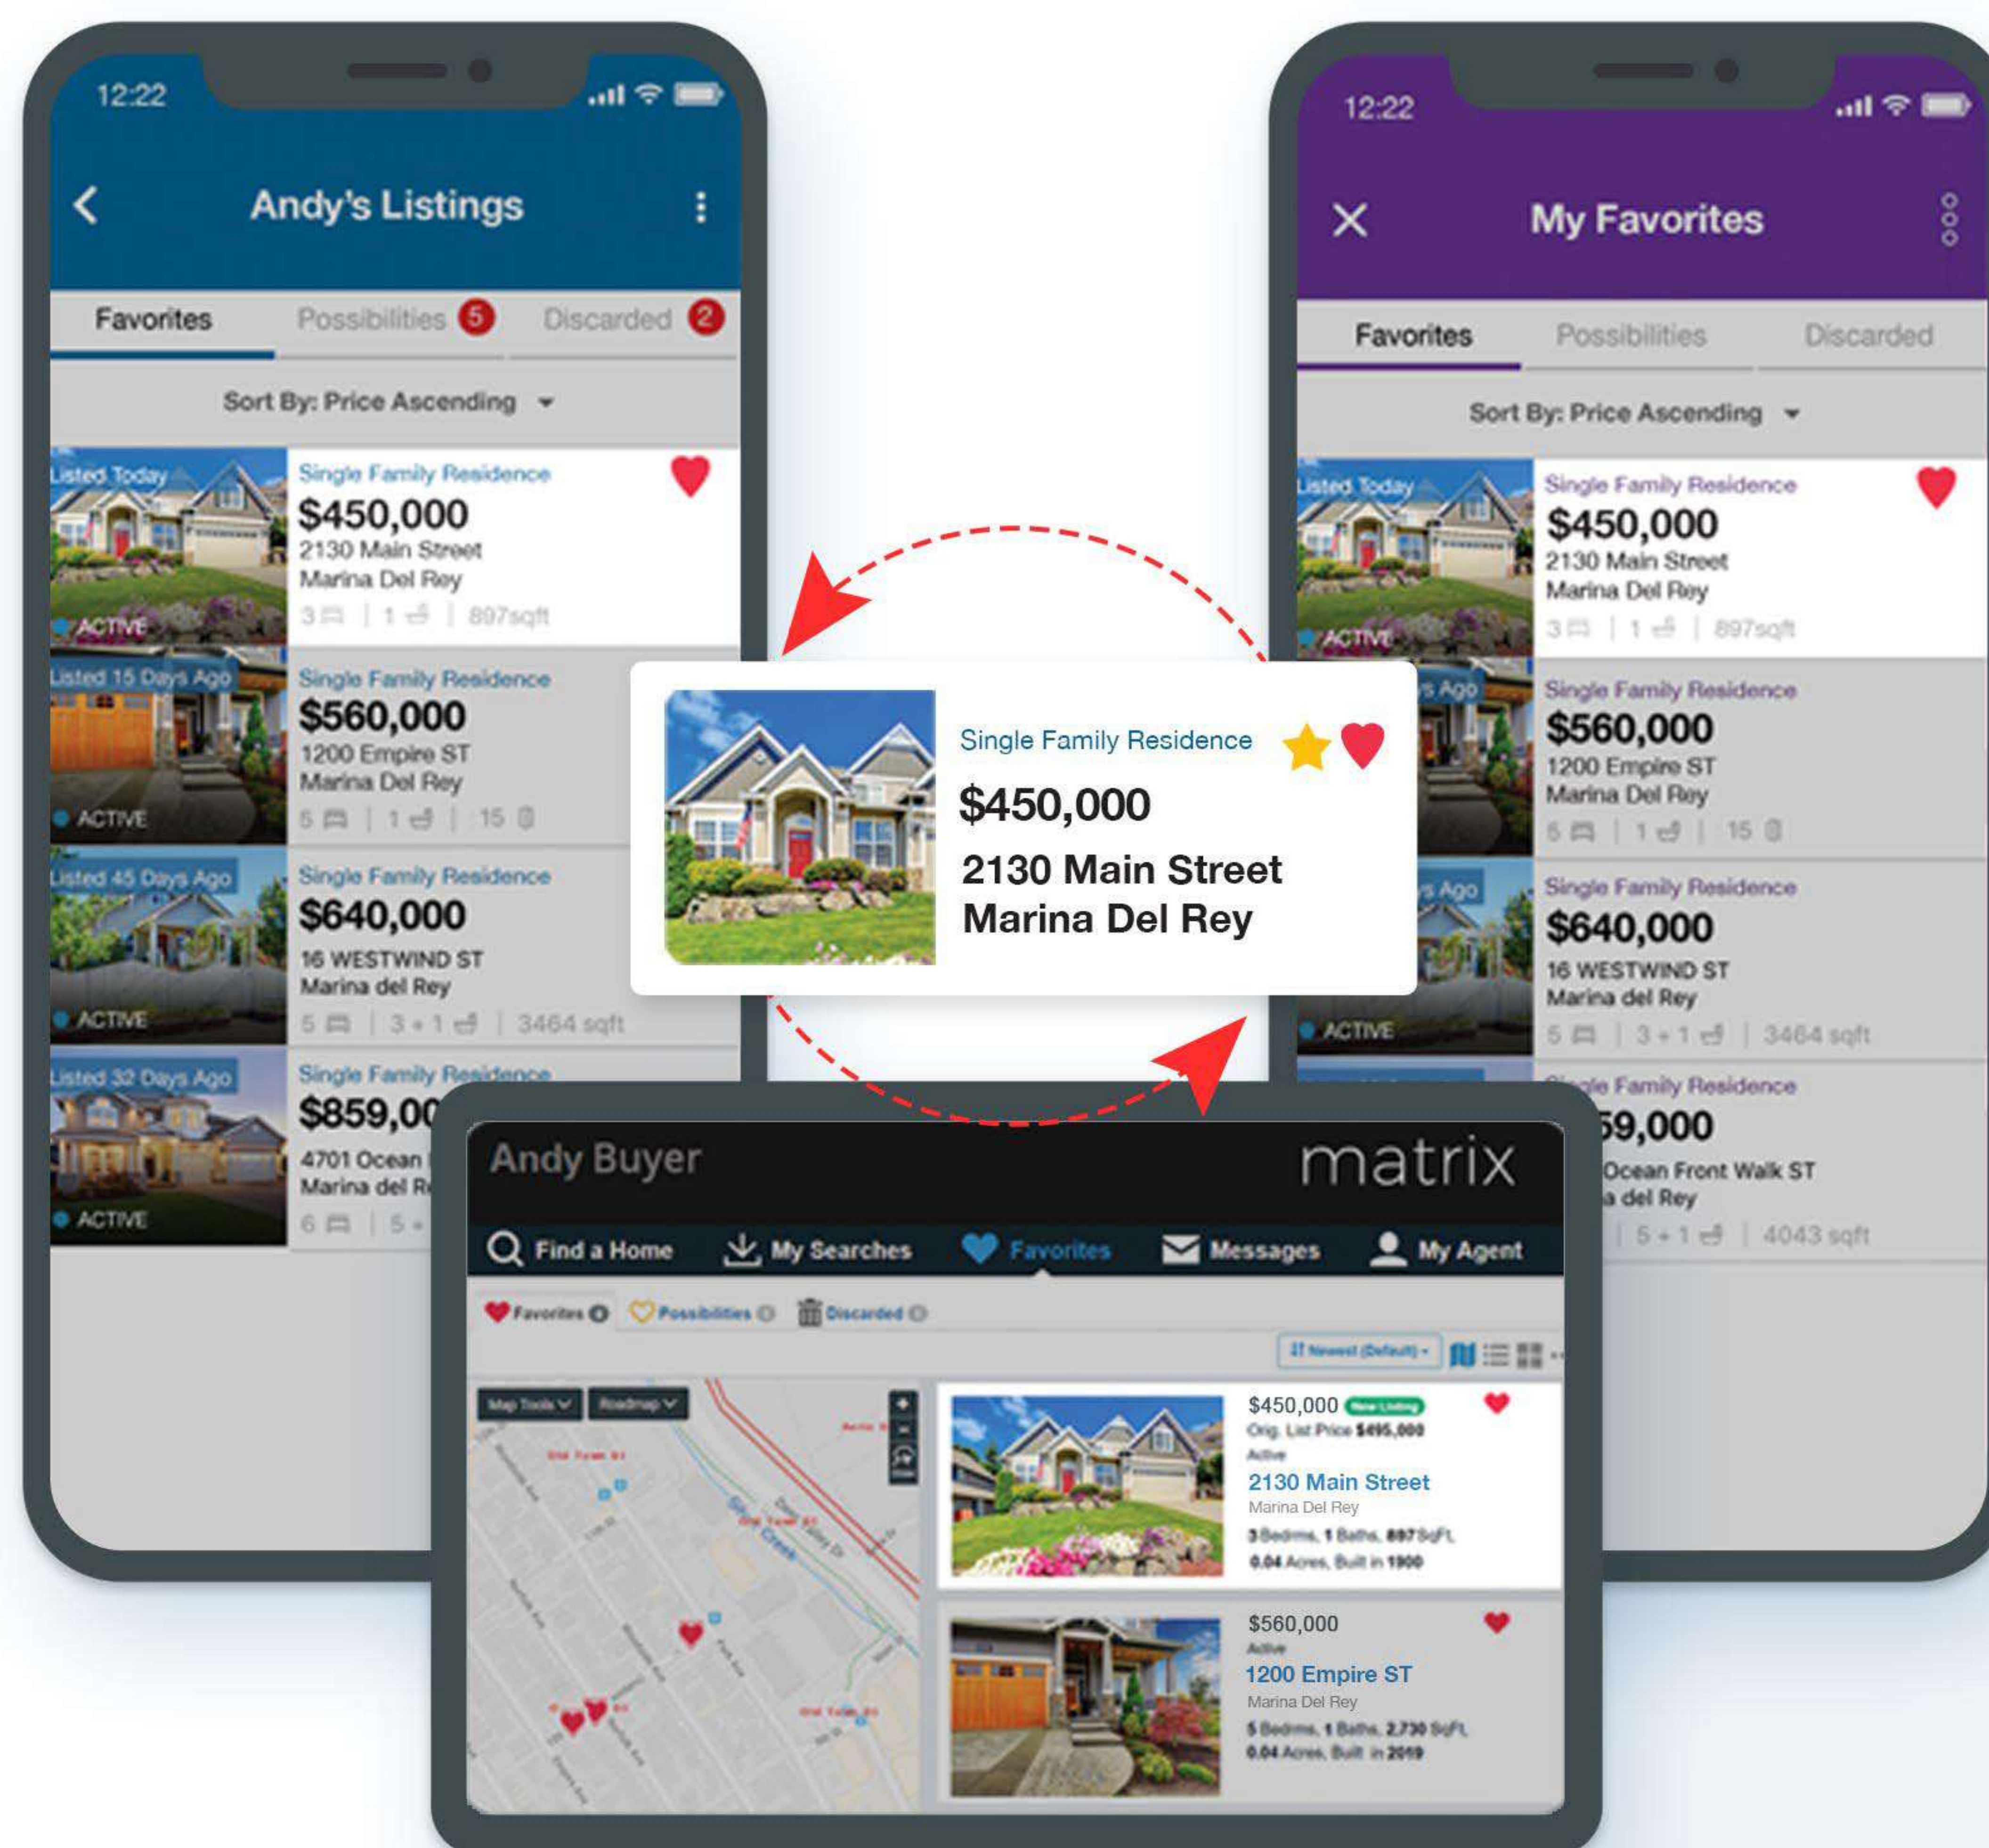

Your clients can track and view their preferred listings and suggested listings whether they're on their laptop or mobile device.

You'll be notified of your clients' new Favorites and Possibilities, plus it's all tracked in their contact records in real-time. Perfectly organized and easily referenced in one place!

* Available in participating markets

Manage Your Carts Through MLS-Touch

Carts allow you to combine listings from different searches and different property types into one list.

The collection of listings can be viewed, emailed or printed at any time. Just like with Matrix, MLS-Touch allows you to create and manage Client Carts, and add listings to them, from the convenience of your phone!

Your Client Carts will sync automatically, eliminating the need to maintain duplicate carts. *
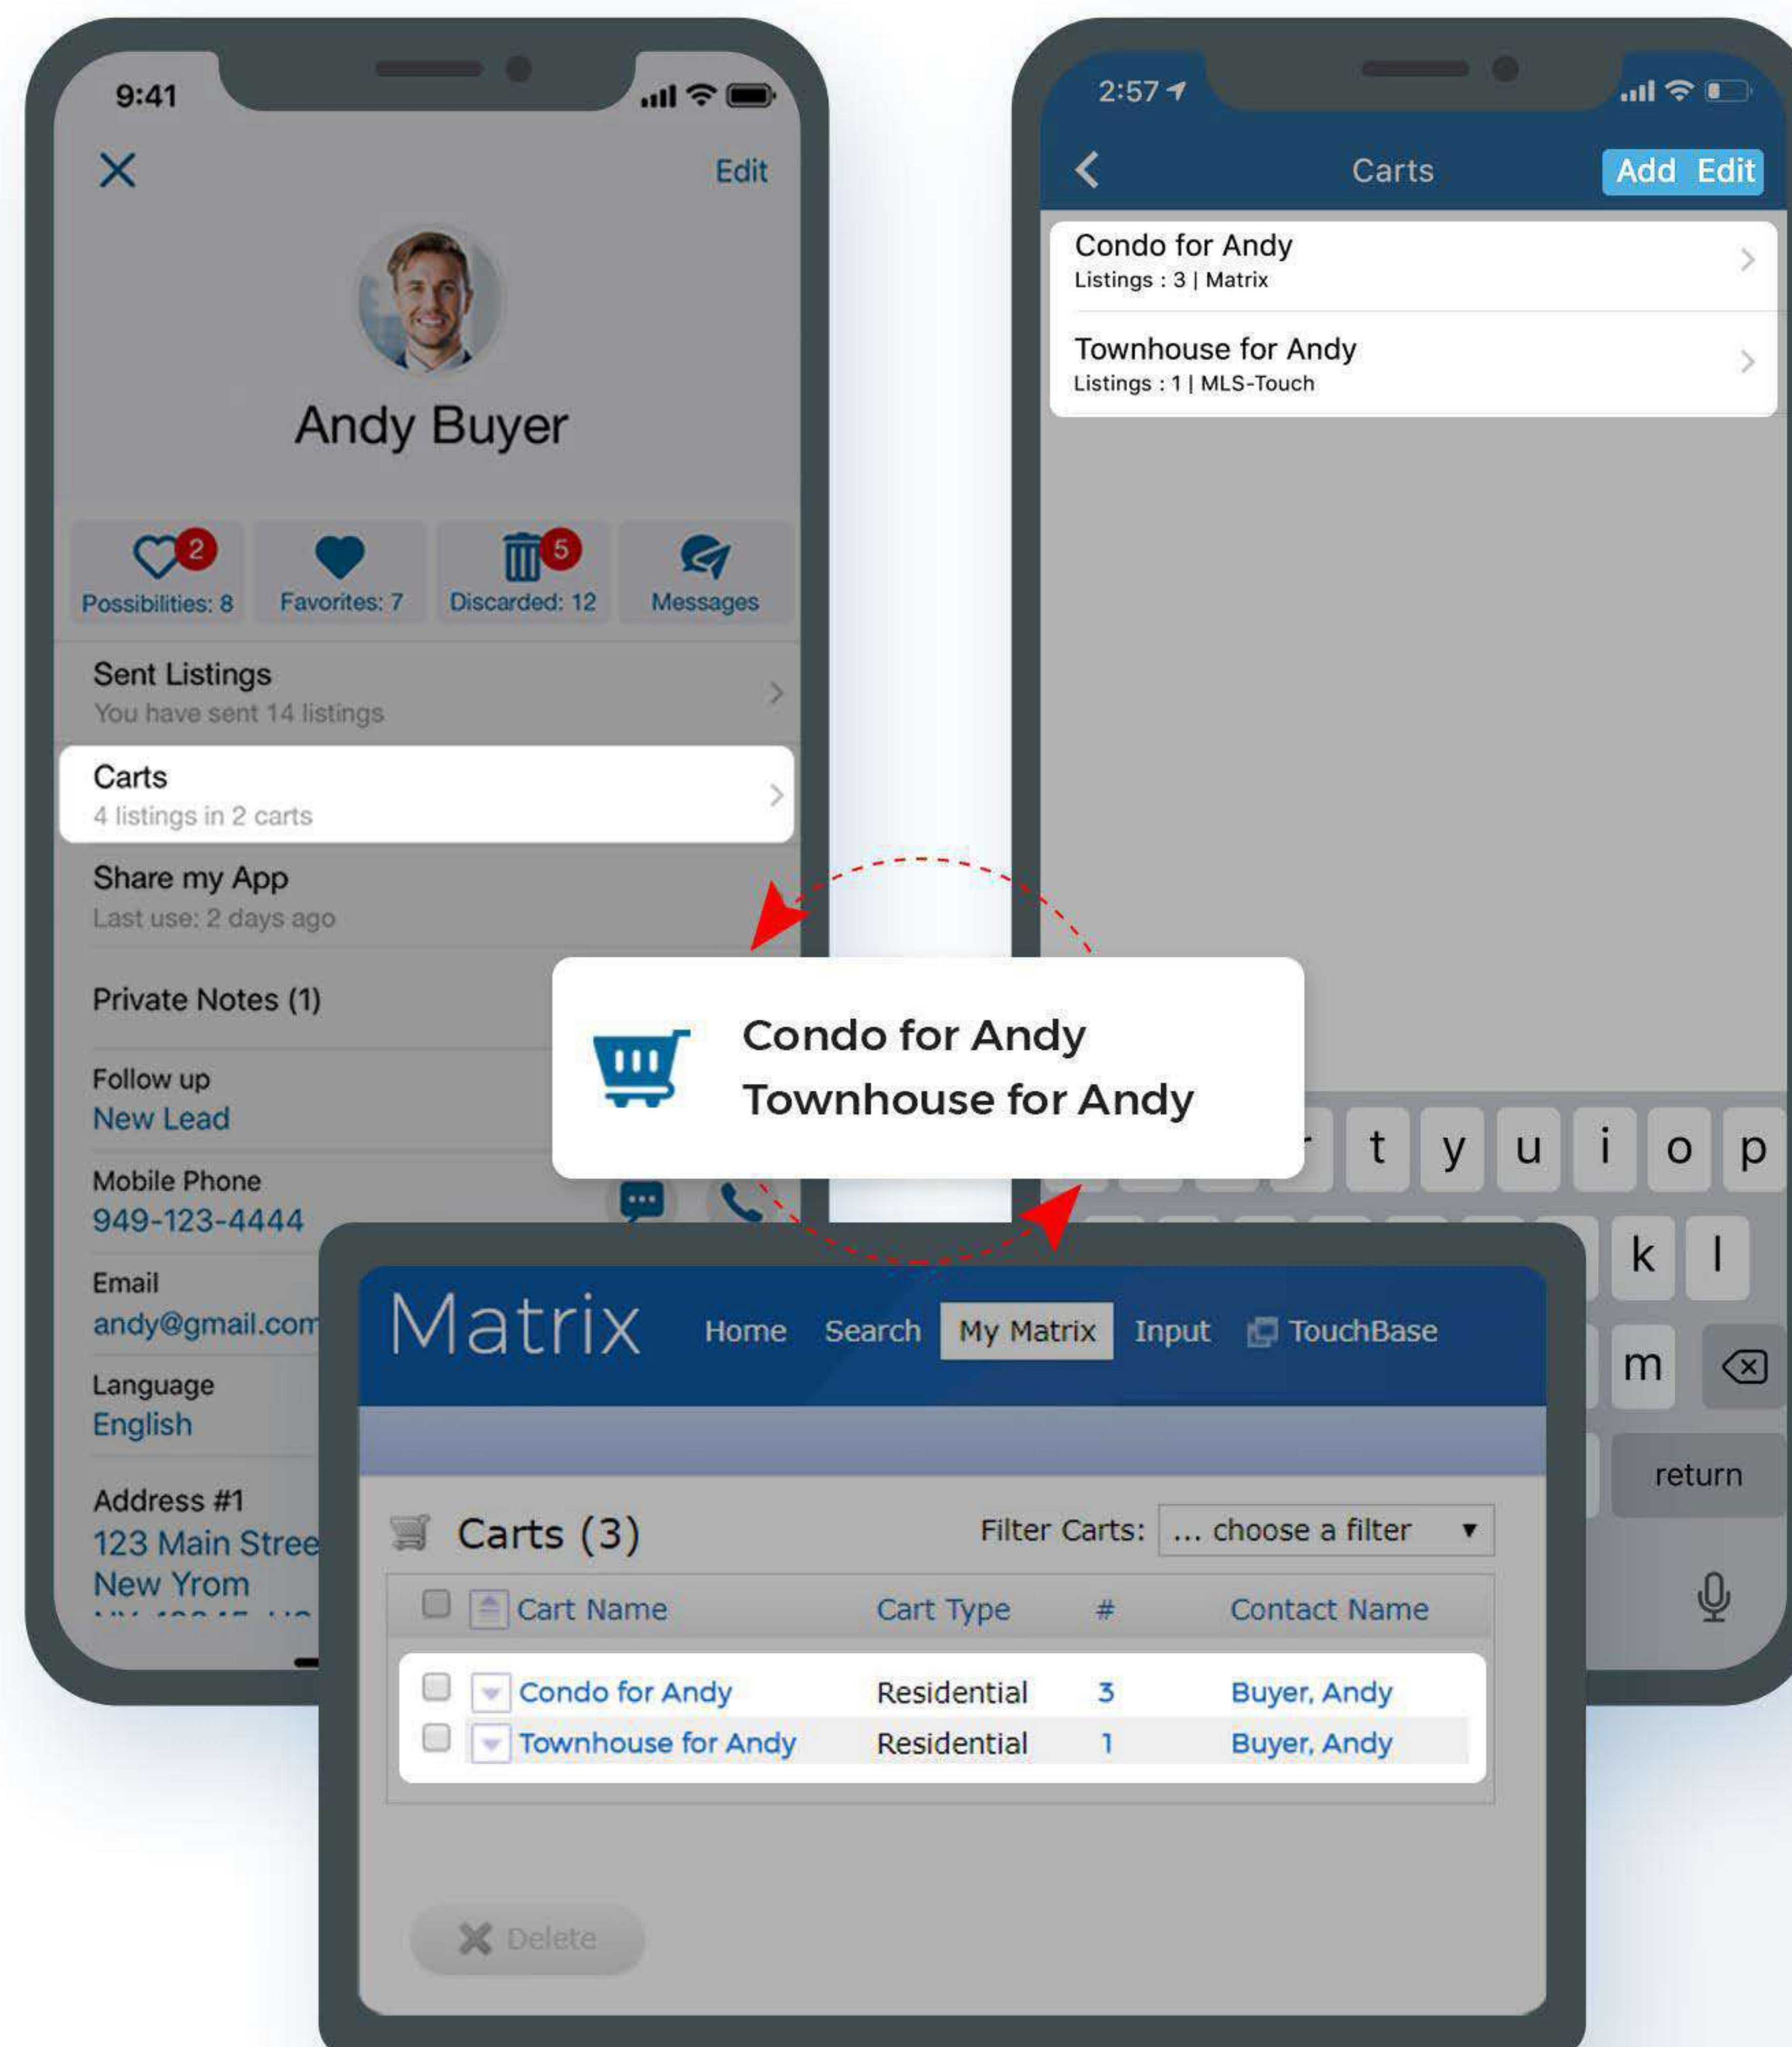

You can add/edit Carts in either Matrix or MLS-Touch and the changes will automatically sync with the other.

Mobile Access to Matrix Saved Searches

Saved Searches make property search easier. They're time savers so that criteria doesn't have to be re-entered to view new listings for a buyer. They also make it easy for you to monitor listings in a particular neighborhood or area. It's information that should be at your fingertips and with MLS-Touch it is! It keeps in perfect sync with Matrix, providing quick access to Saved Searches from within the App. No more duplicate entry of important Saved Searches! *
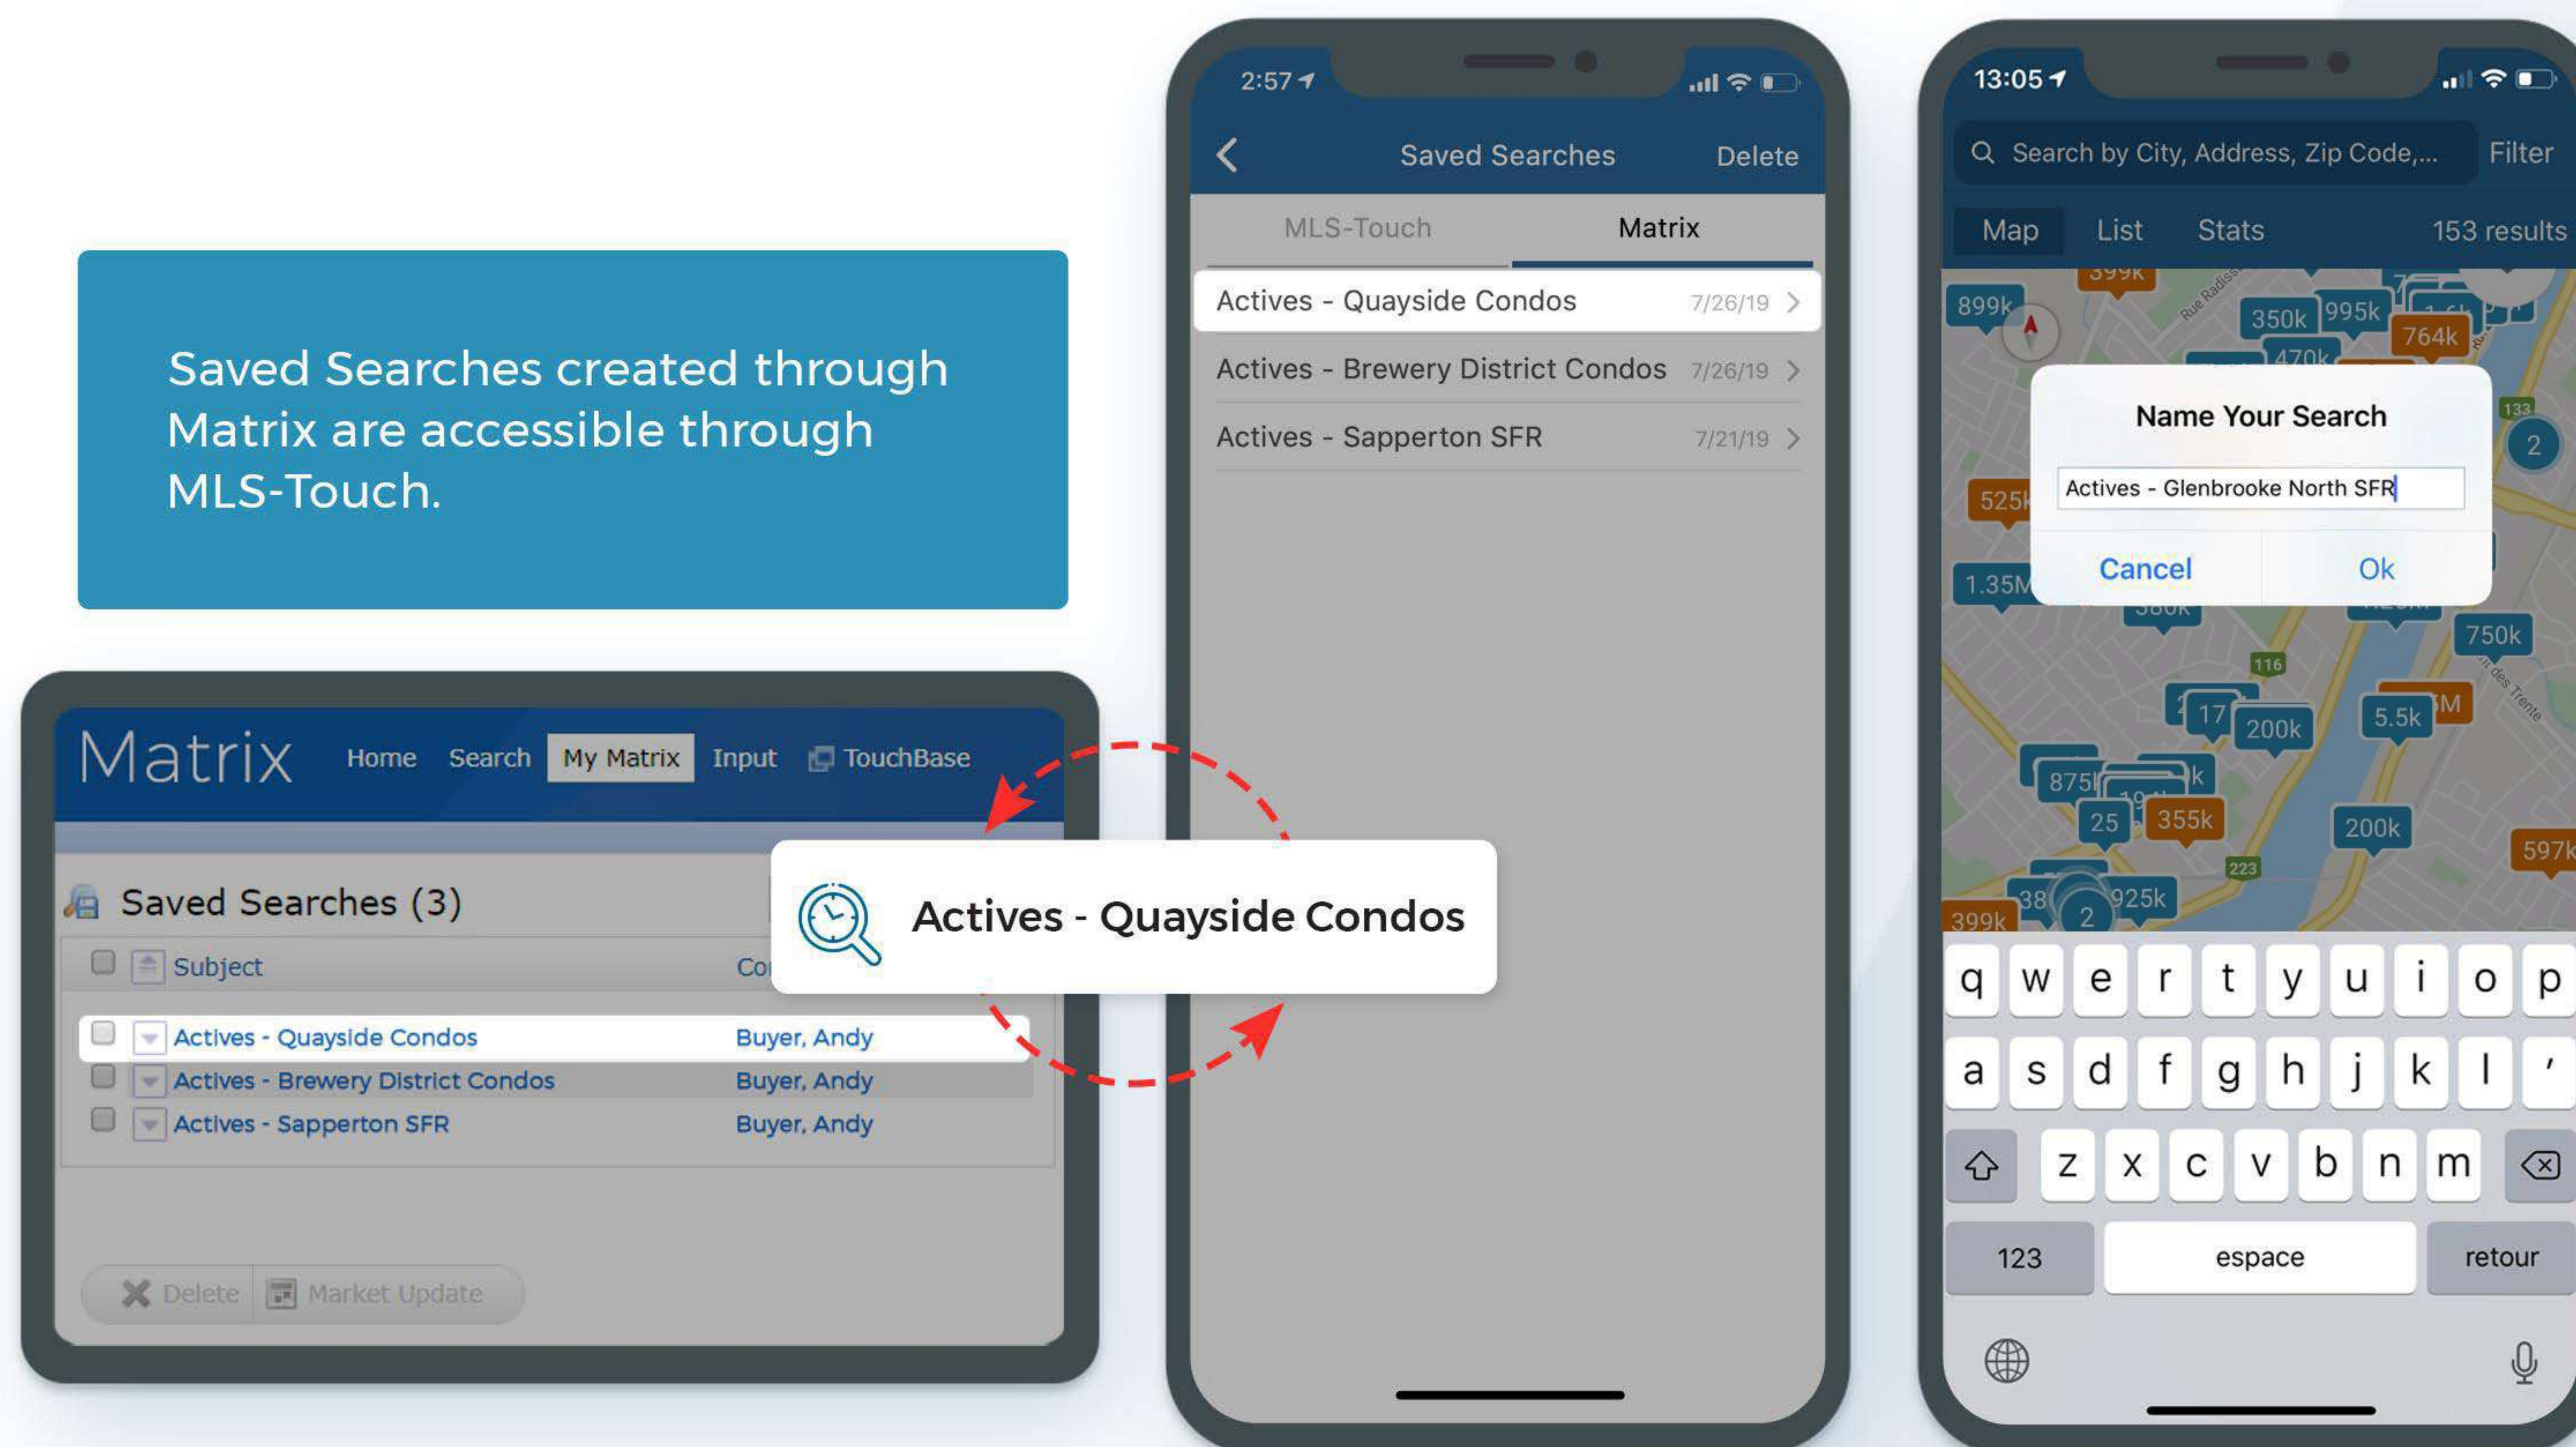

Saved Searches created through Matrix are accessible through MLS-Touch.

You can also save searches in MLS-Touch from the Map and Advanced Search features. These will not sync with Matrix at this time.

* Available in participating markets

Edit Your Listings on The Go

When your seller wants to reduce the price on their listing, you should be able to make that time-sensitive change right there on the spot, not hours later when you're back at your desk. With MLS-Touch you can update Prices, Public Remarks and Private Remarks in seconds and the changes instantly update in the MLS. *
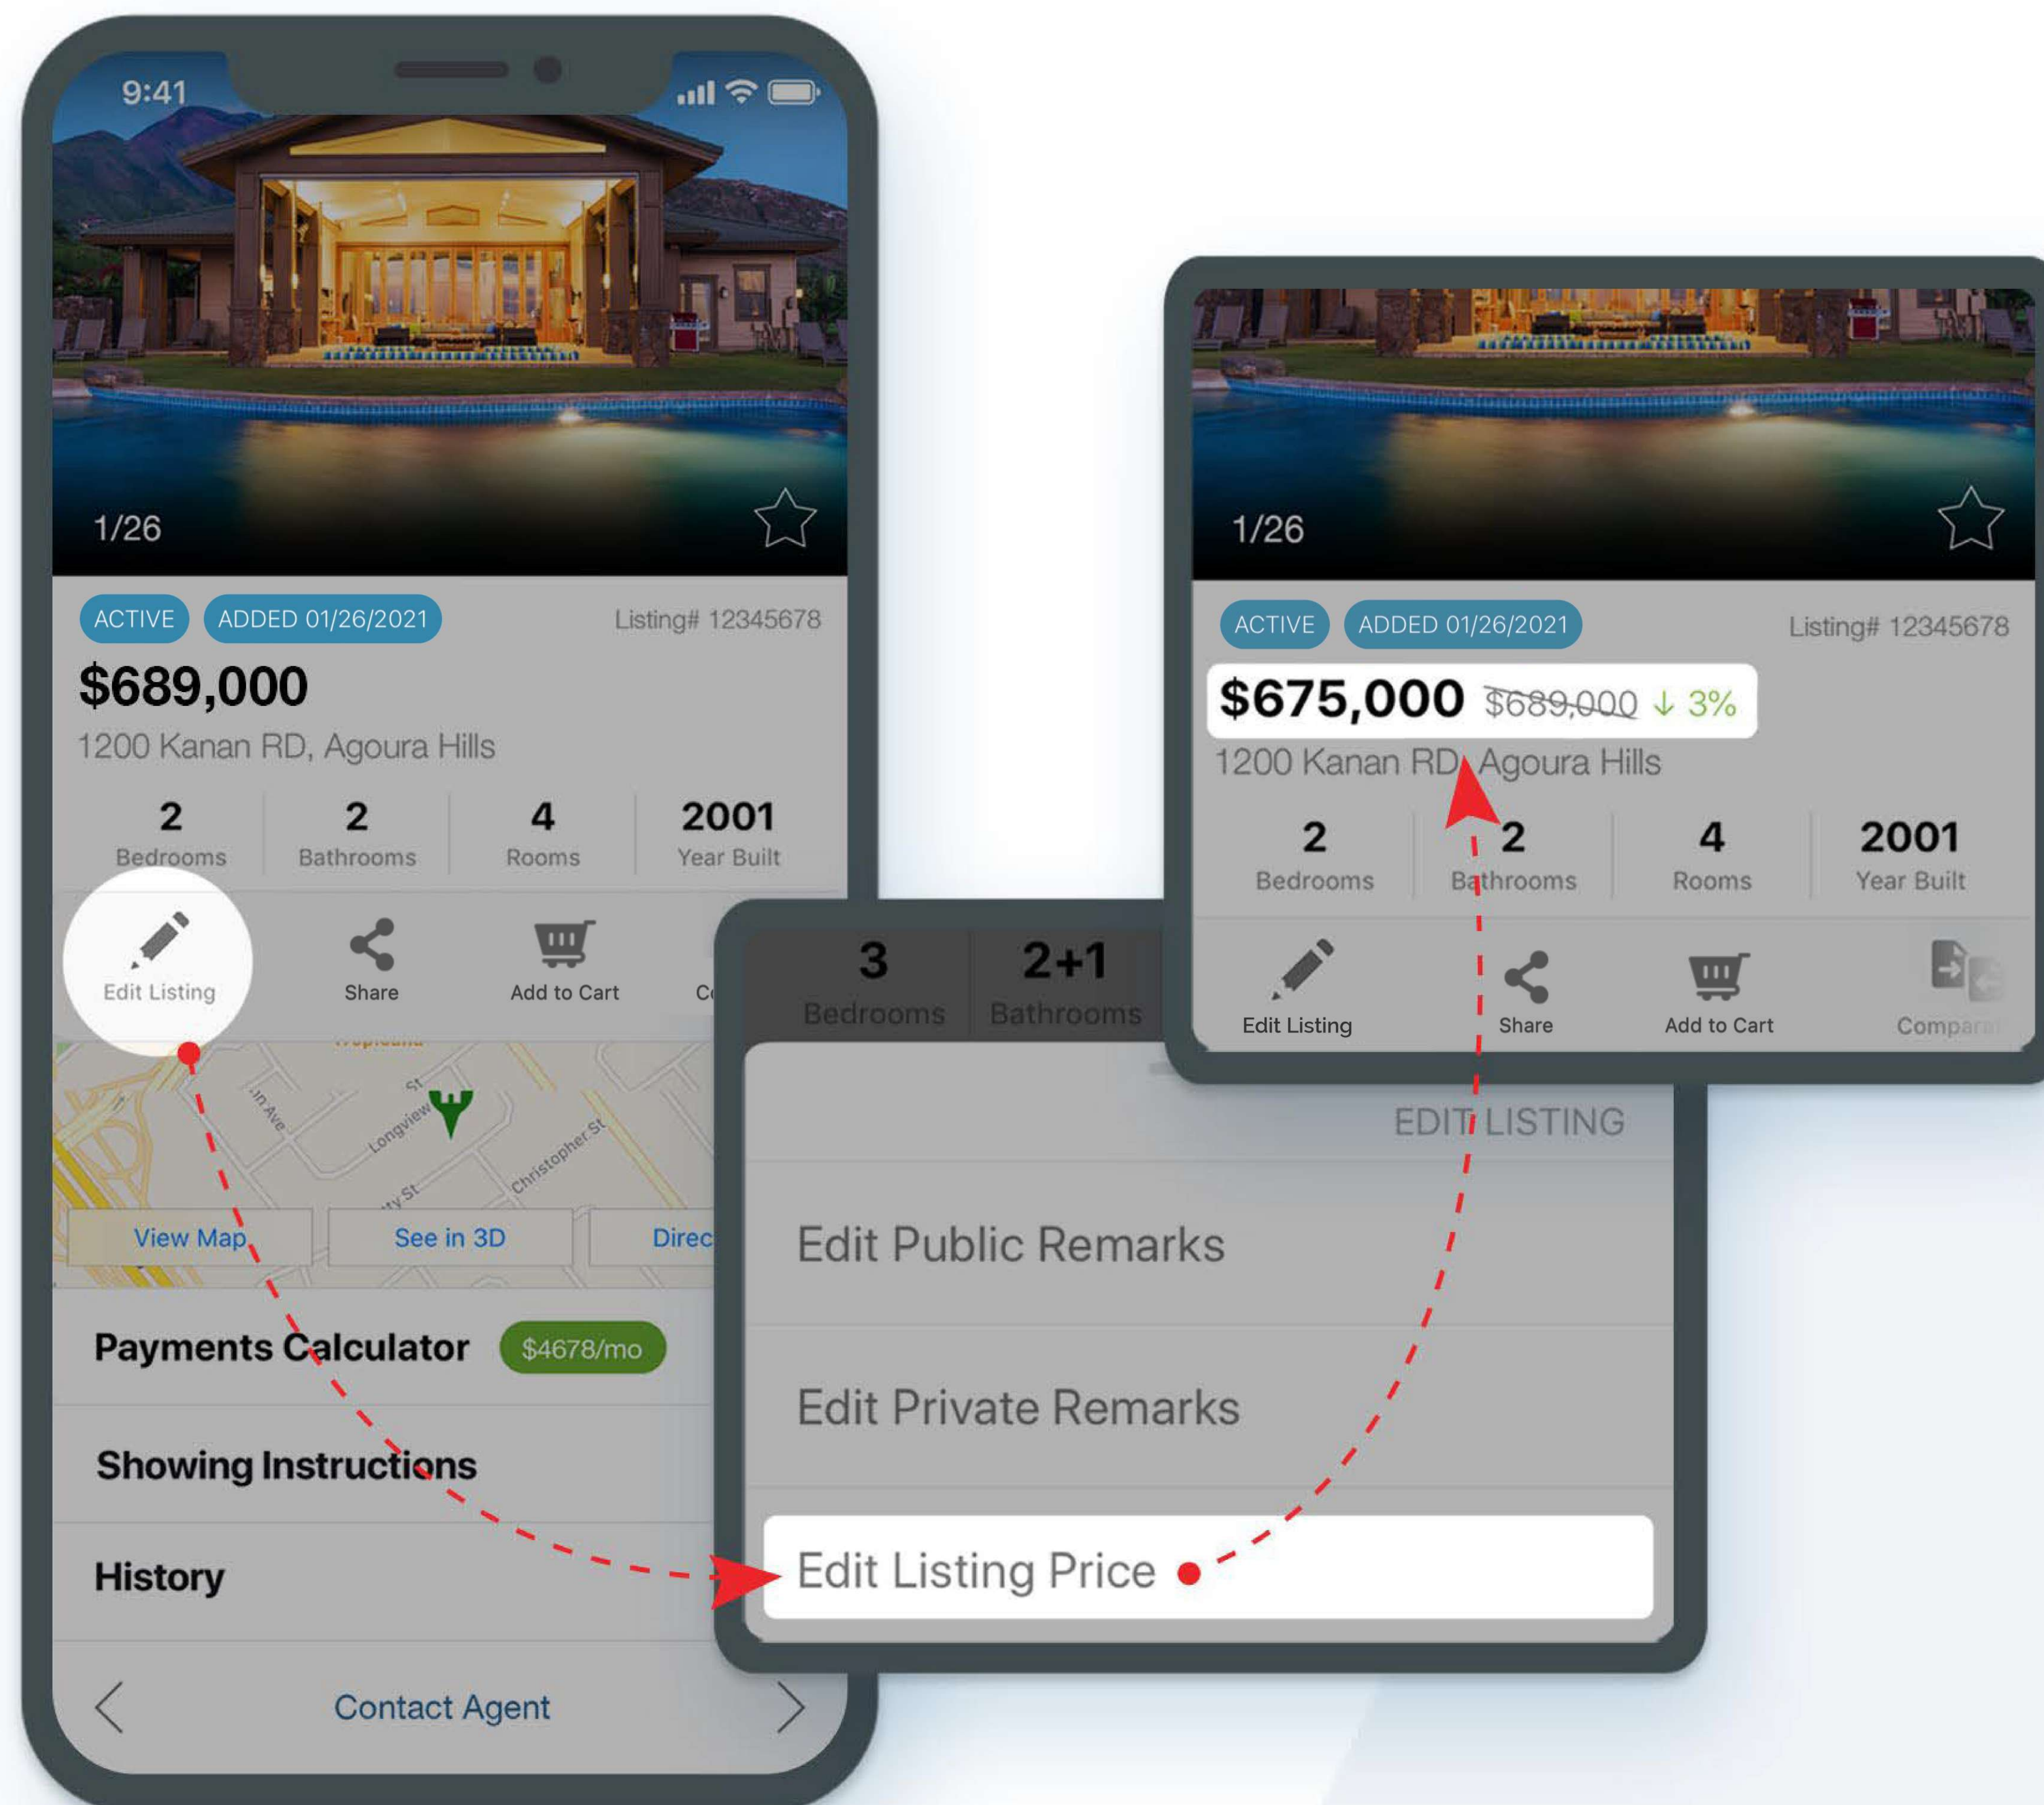

Use the My Listings feature to quickly access the listing you want to edit.
