Look Up Nearby Listings With a Single Tap

The MLS-Touch InstaView feature is the perfect tool to use when your client asks "What about that listing over there?" Or when you're at a showing and don't have a printed flyer. With one tap you can look up the details and email or text a Listing Sheet to your client.

MLS-Touch will display all active listings within 400 ft.

All the Listing Details You Need

Includes tax info, listing history, property history, Matrix Documents (where available), and Agent-Only information such as private remarks, showing instructions, and commission data.

You will be prompted to pick up to 10 areas when you get started.

Give Your Clients the Mobile Search App They Deserve

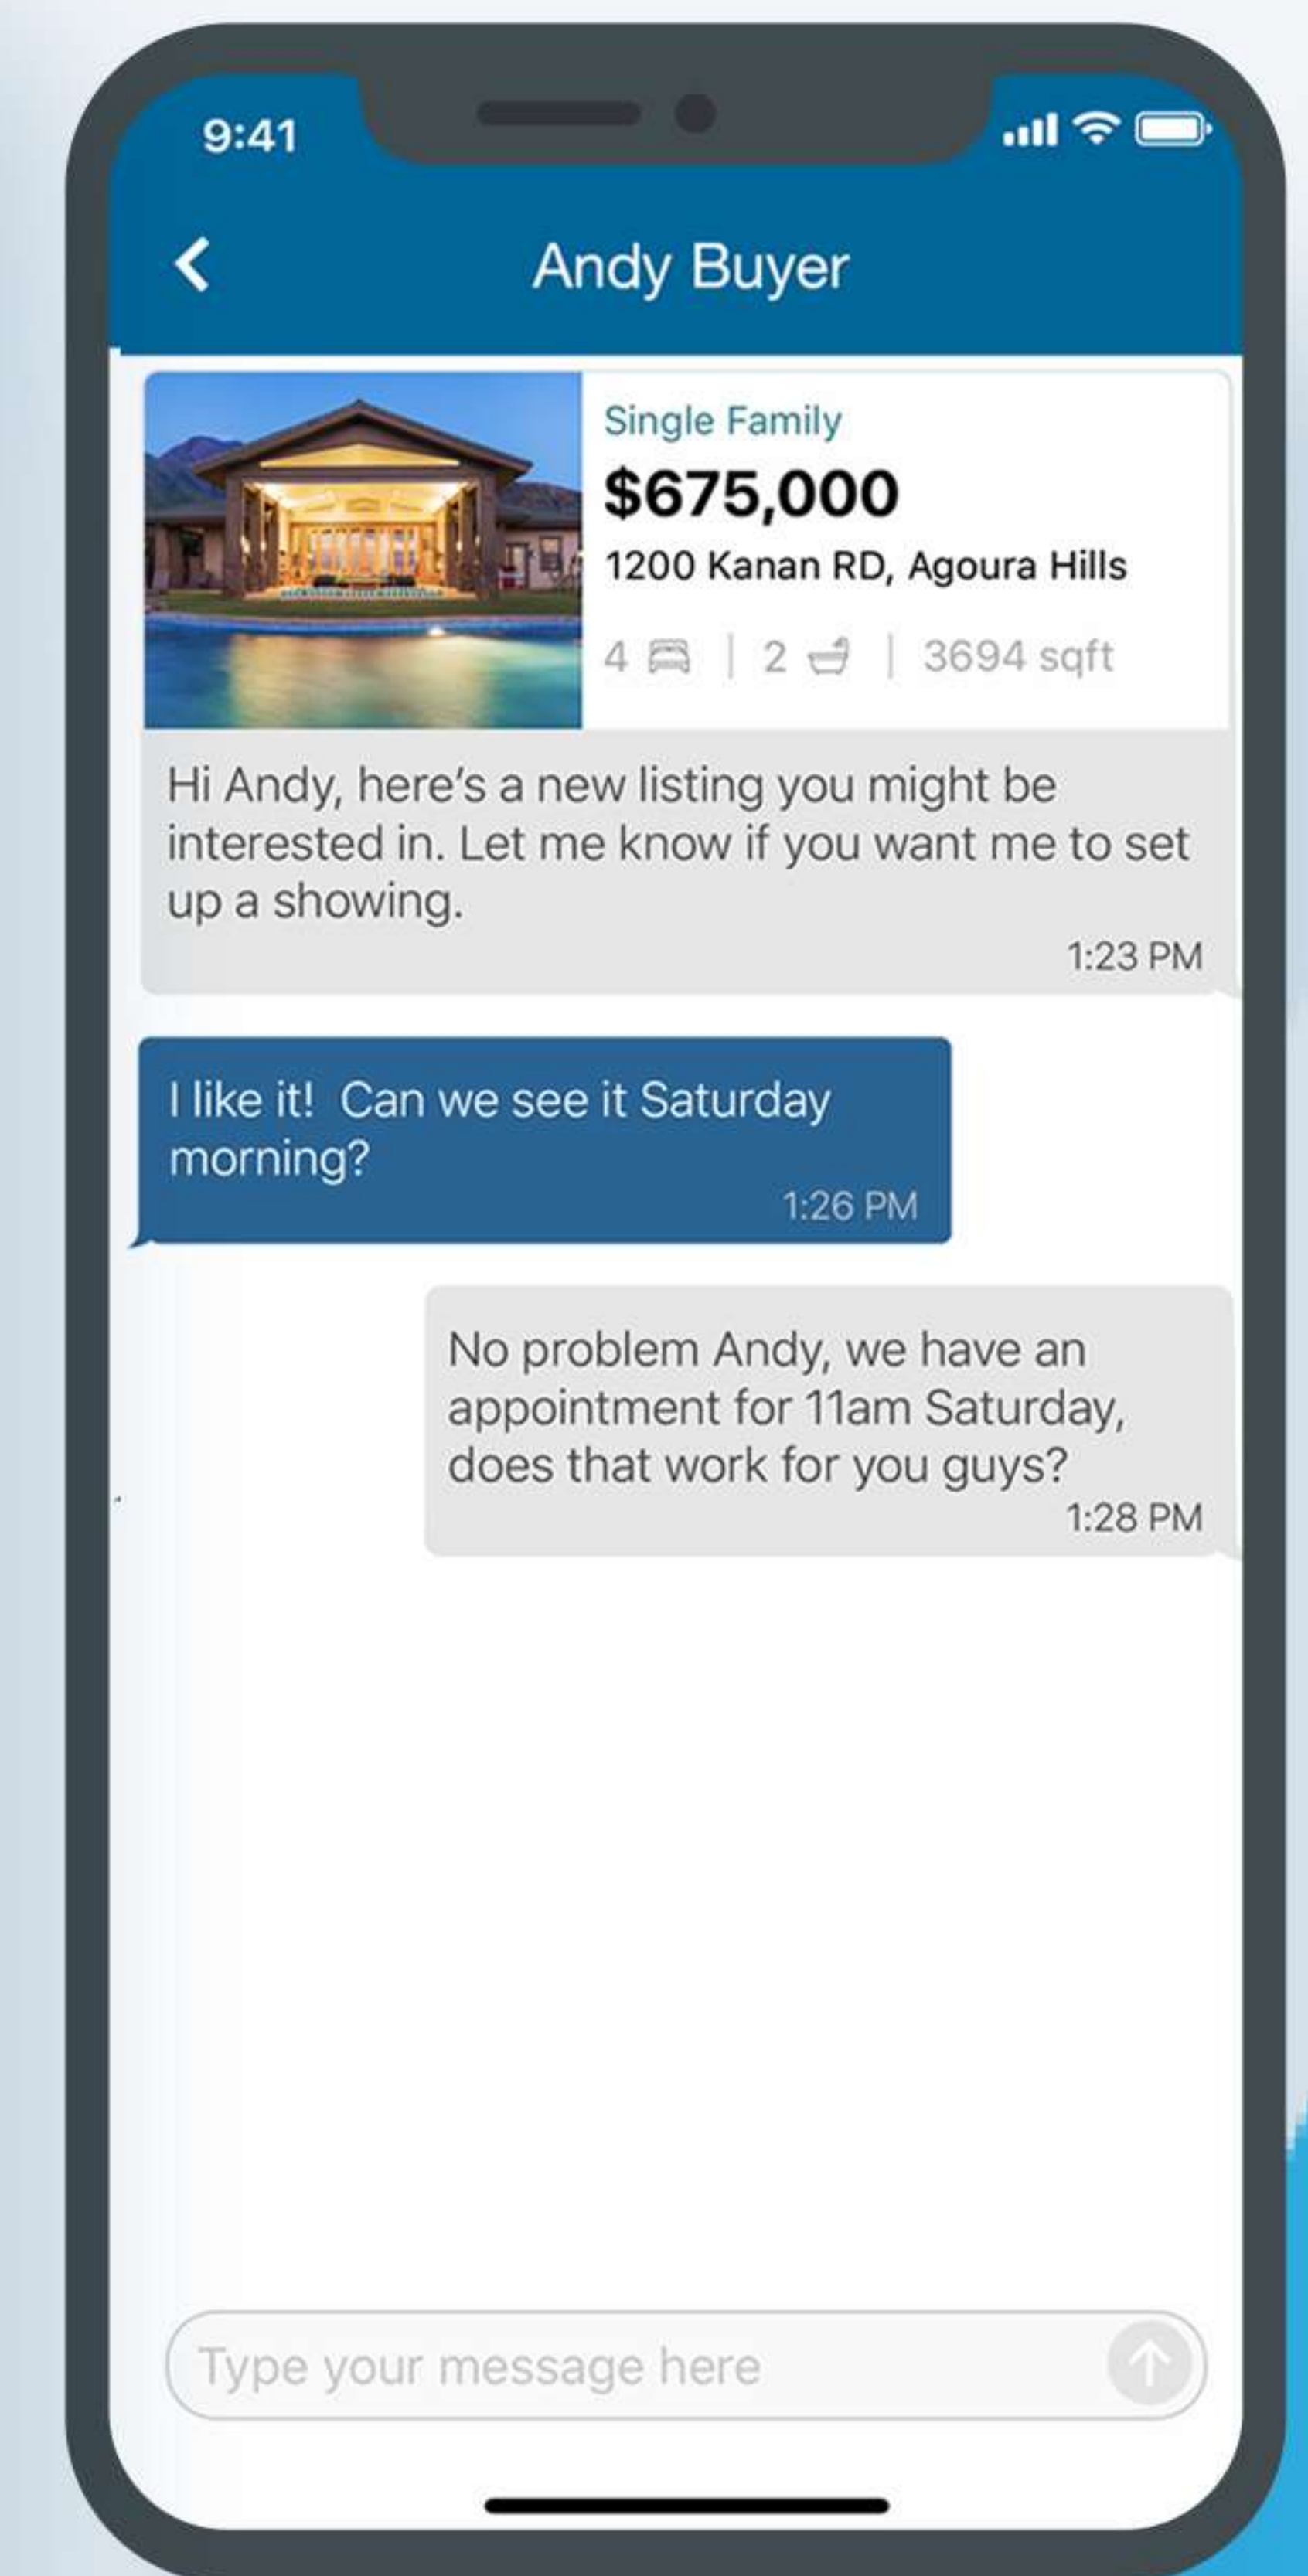

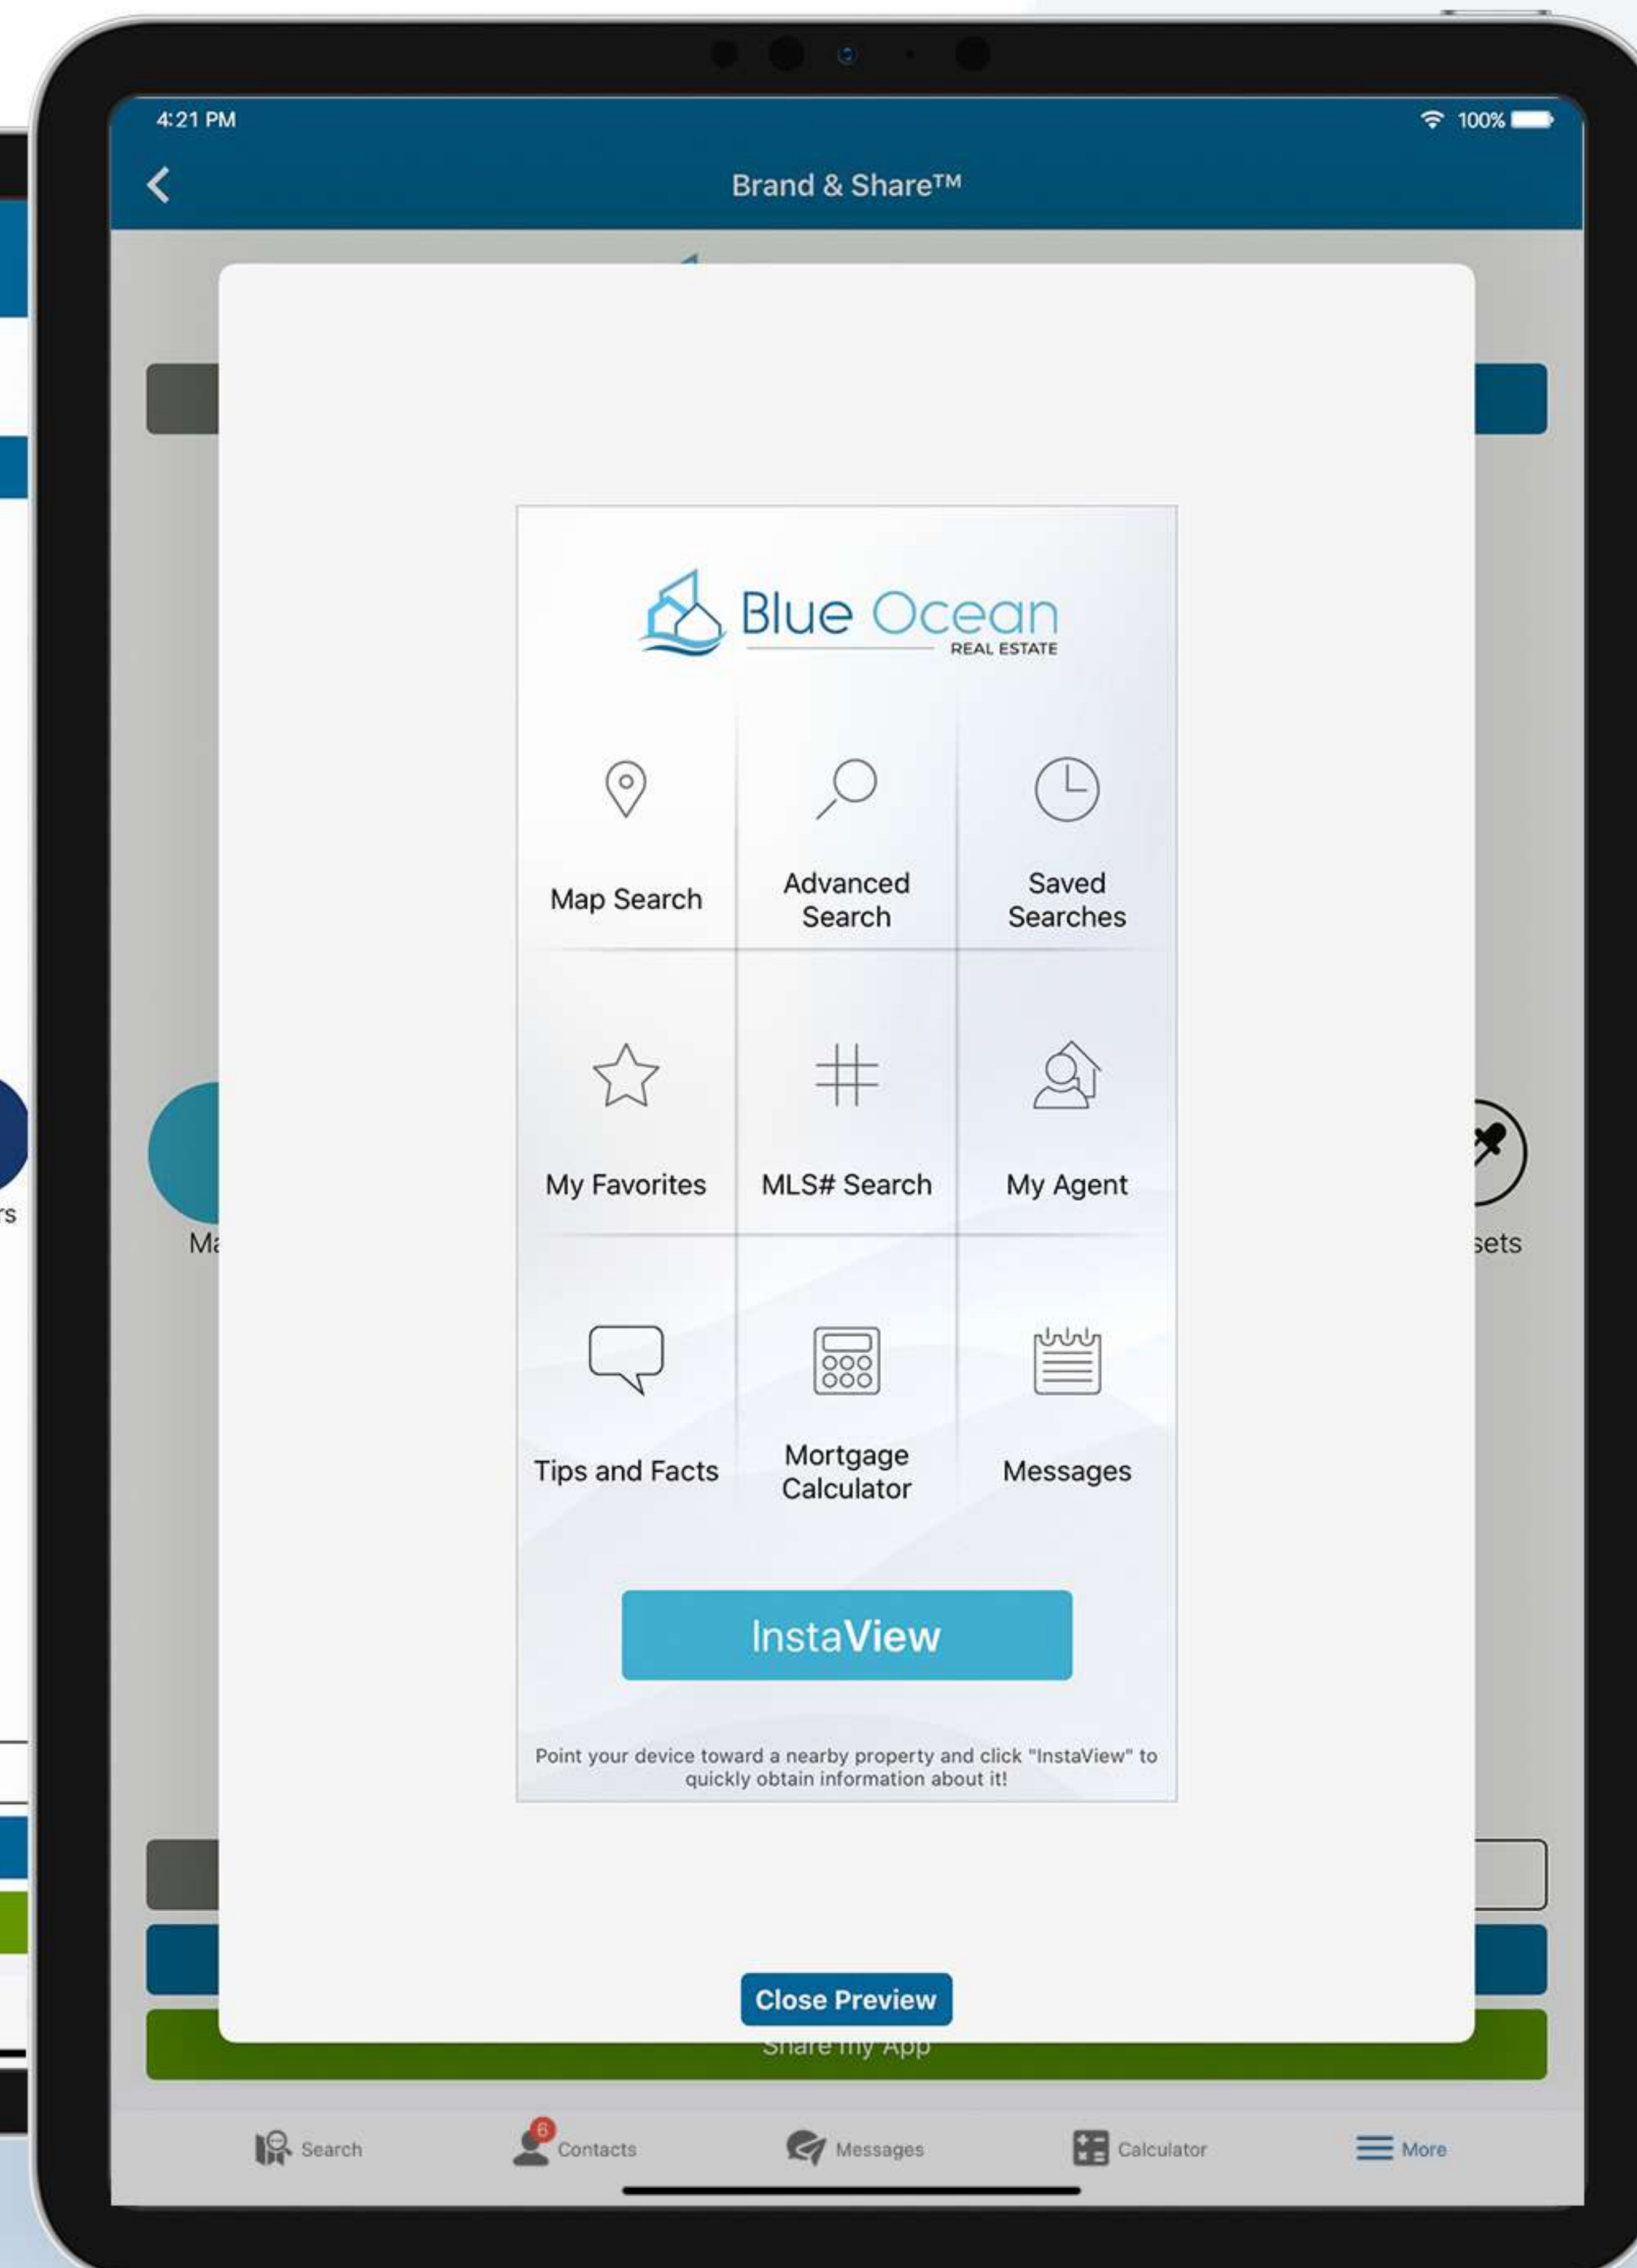

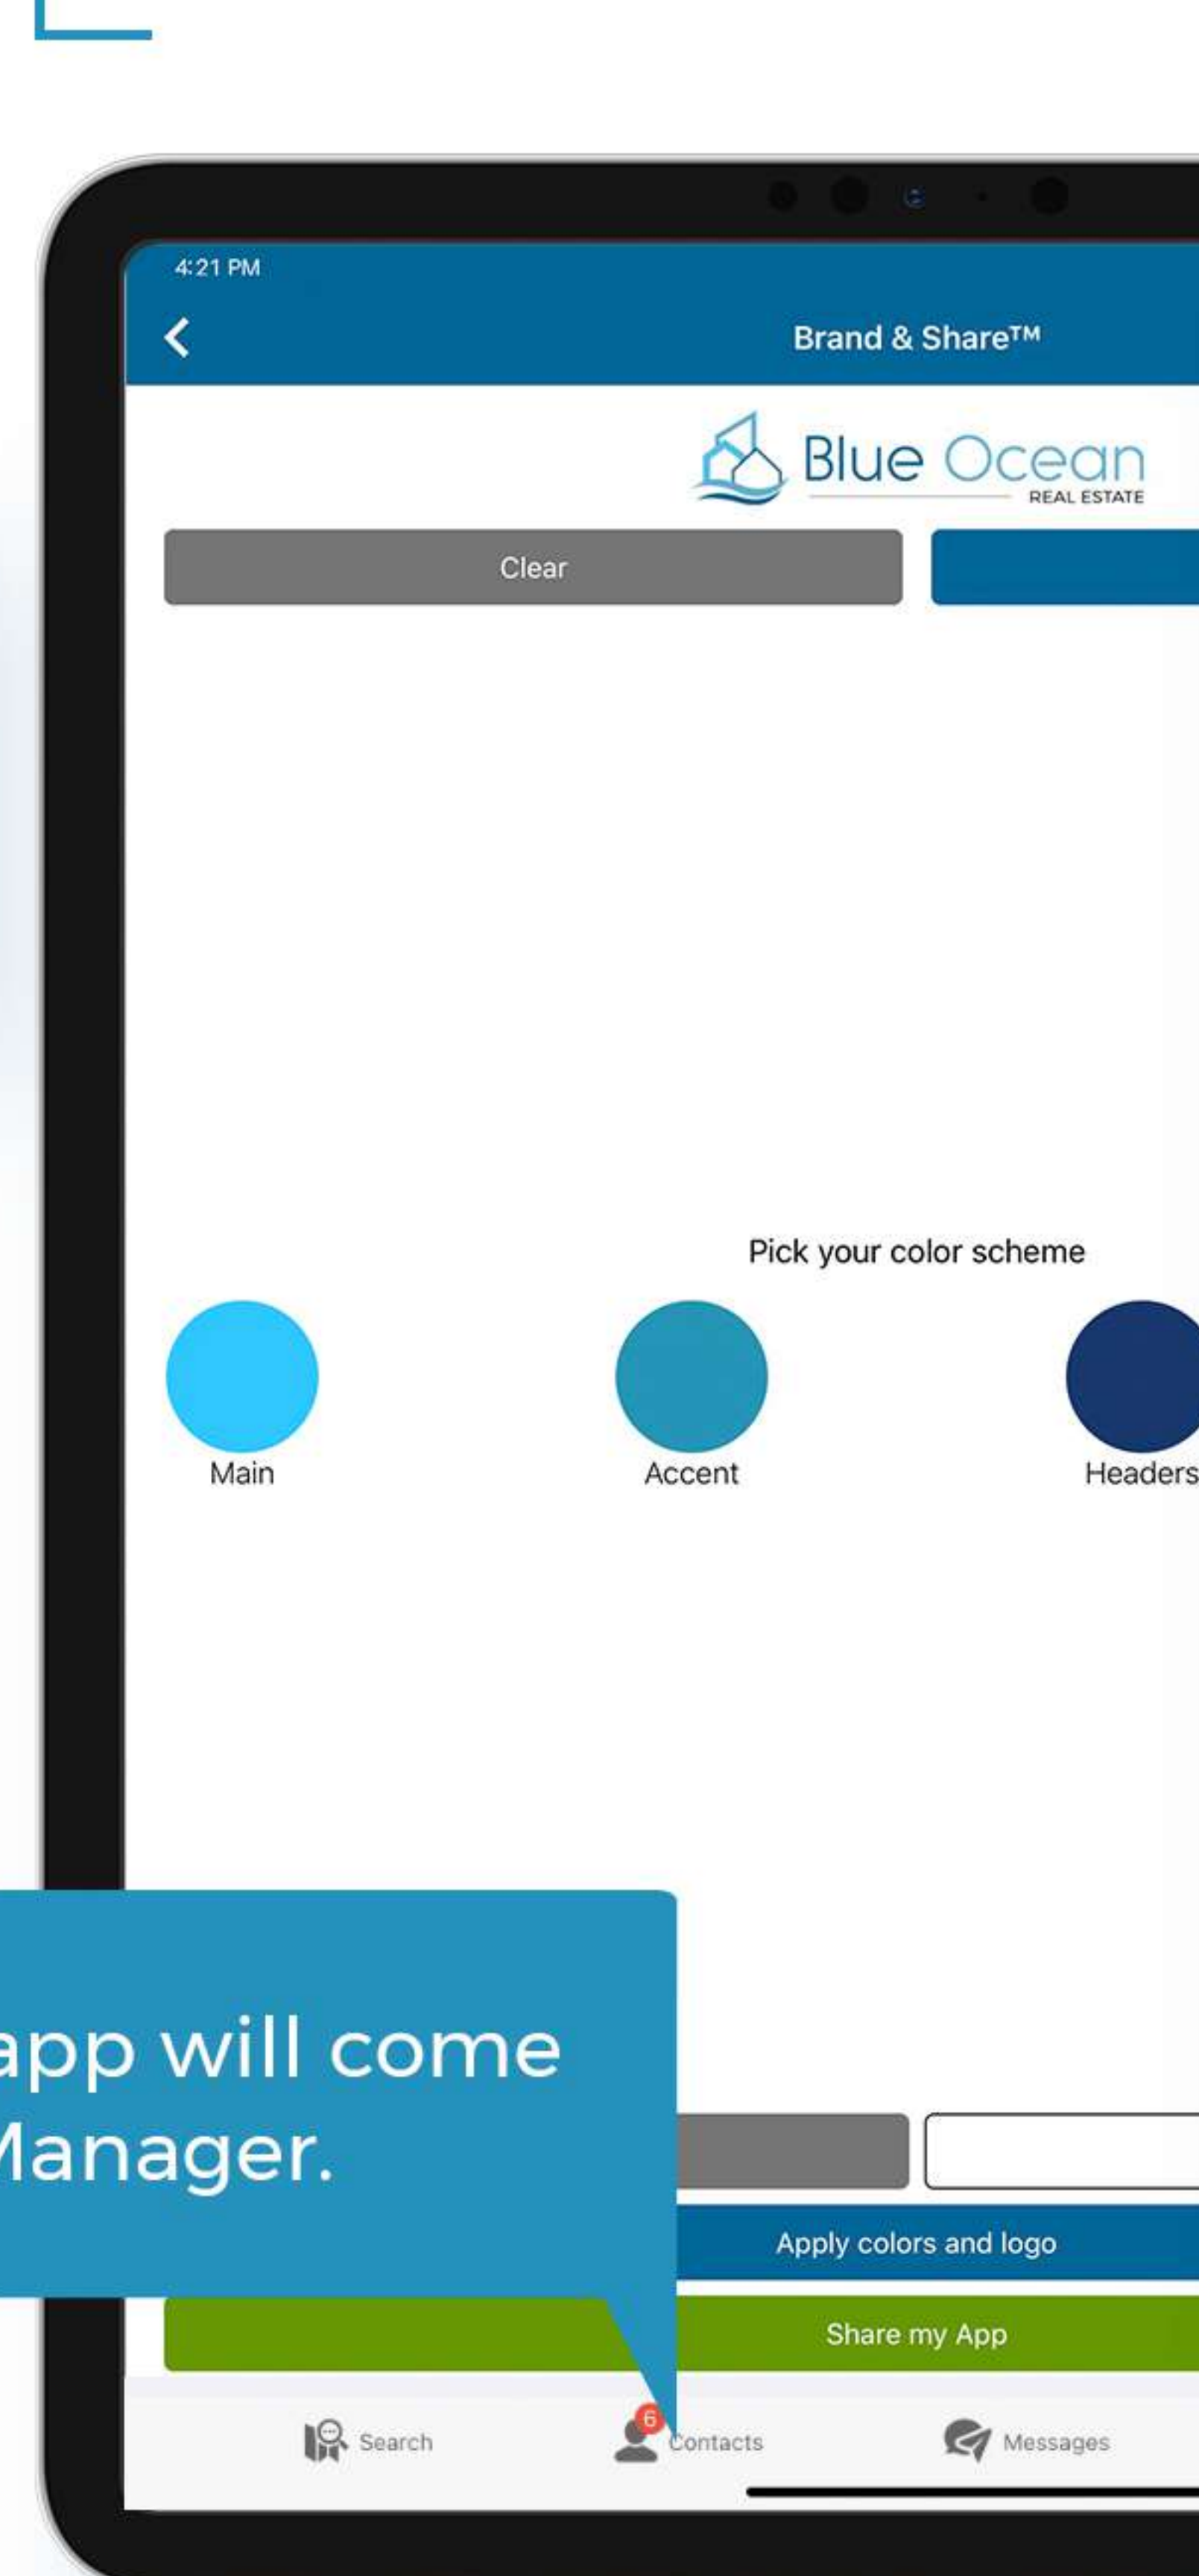

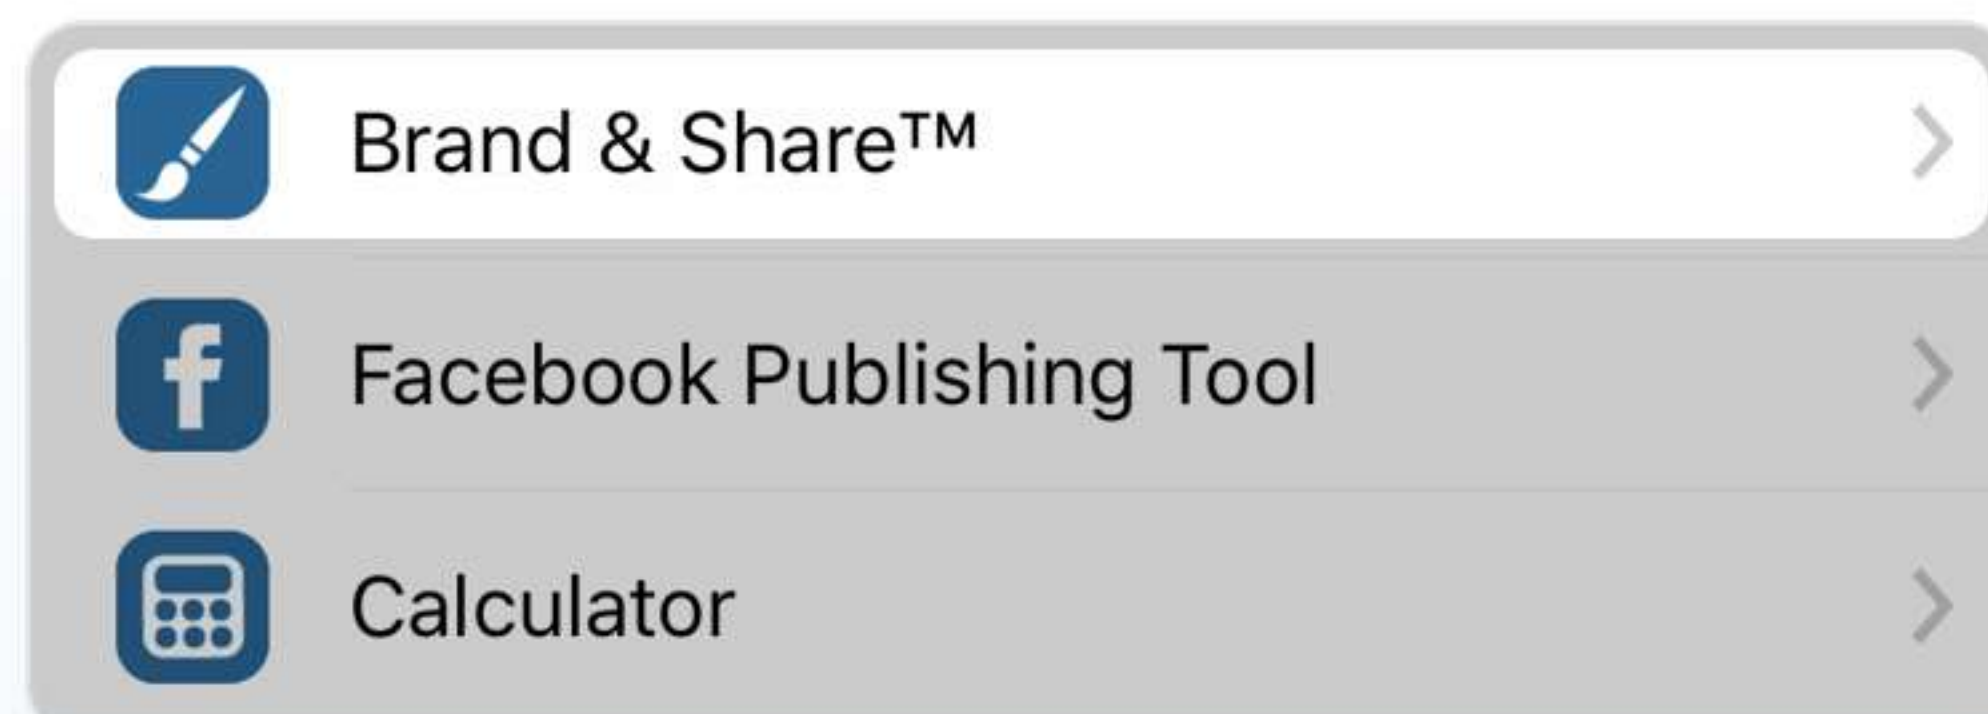

Create and share your own branded app with the Brand & Share feature. Your clients will get access to ALL the listings in your market and you'll get instant insight into the listings they flag as Favorites, Possibilities, and Discards. Listing inquiries and showing requests come directly to YOU. *

Preview and share
your branded App

Collaborate easily
with your clients

Access Brand & Share™
under the More menu

Set your colors & logo

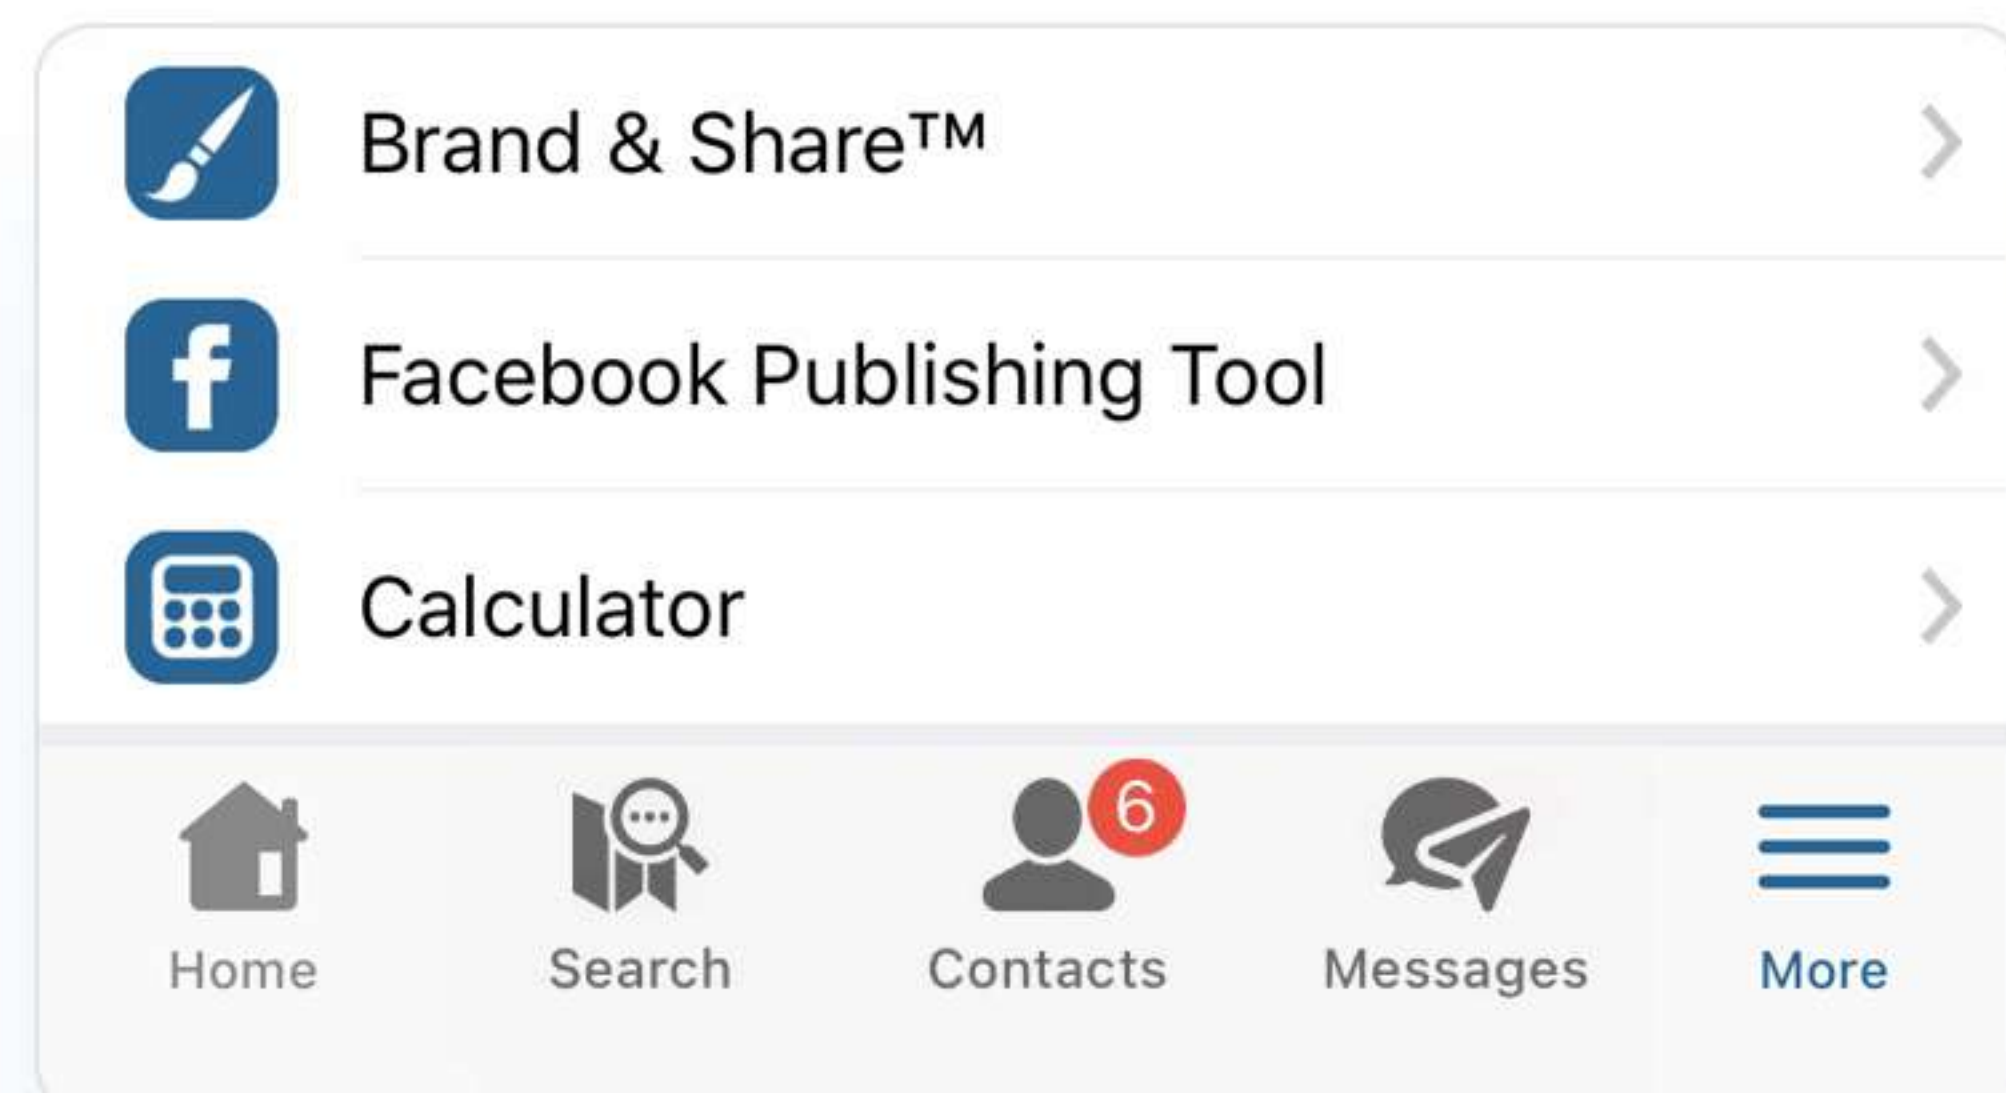

Any individual that installs your app will come in as a new lead in the Contact Manager.

Leverage Facebook to Grow Your Business

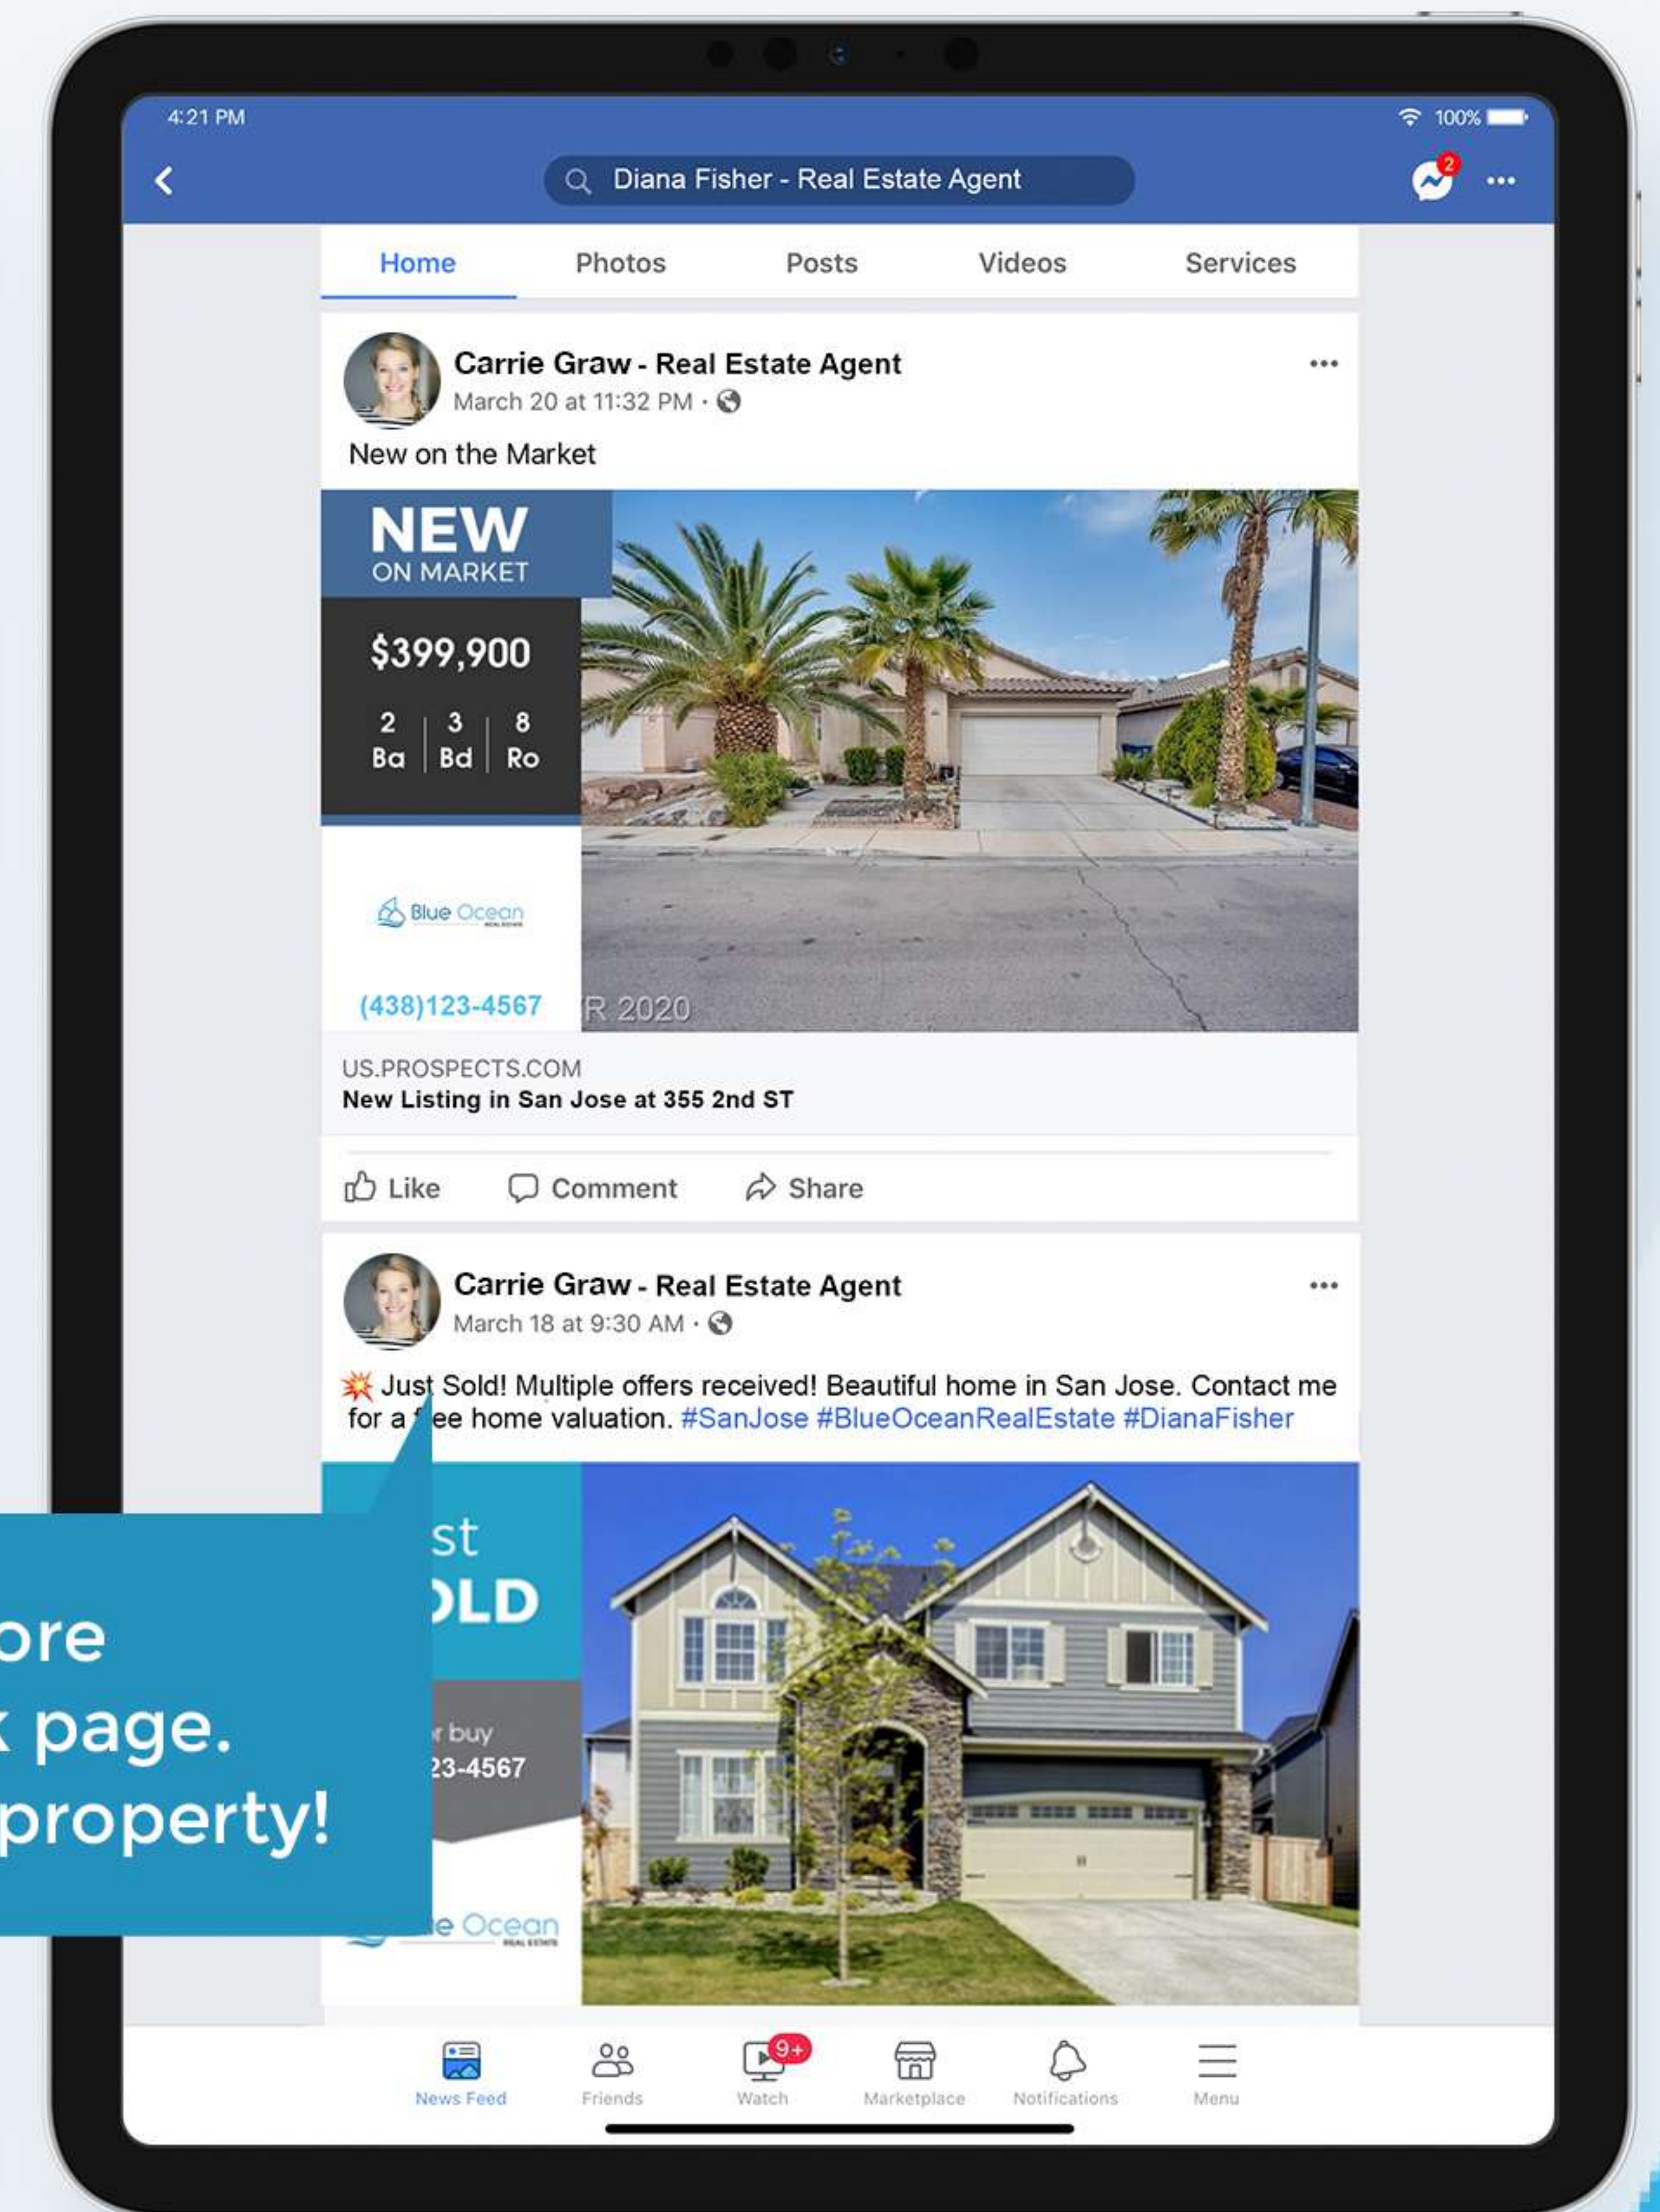

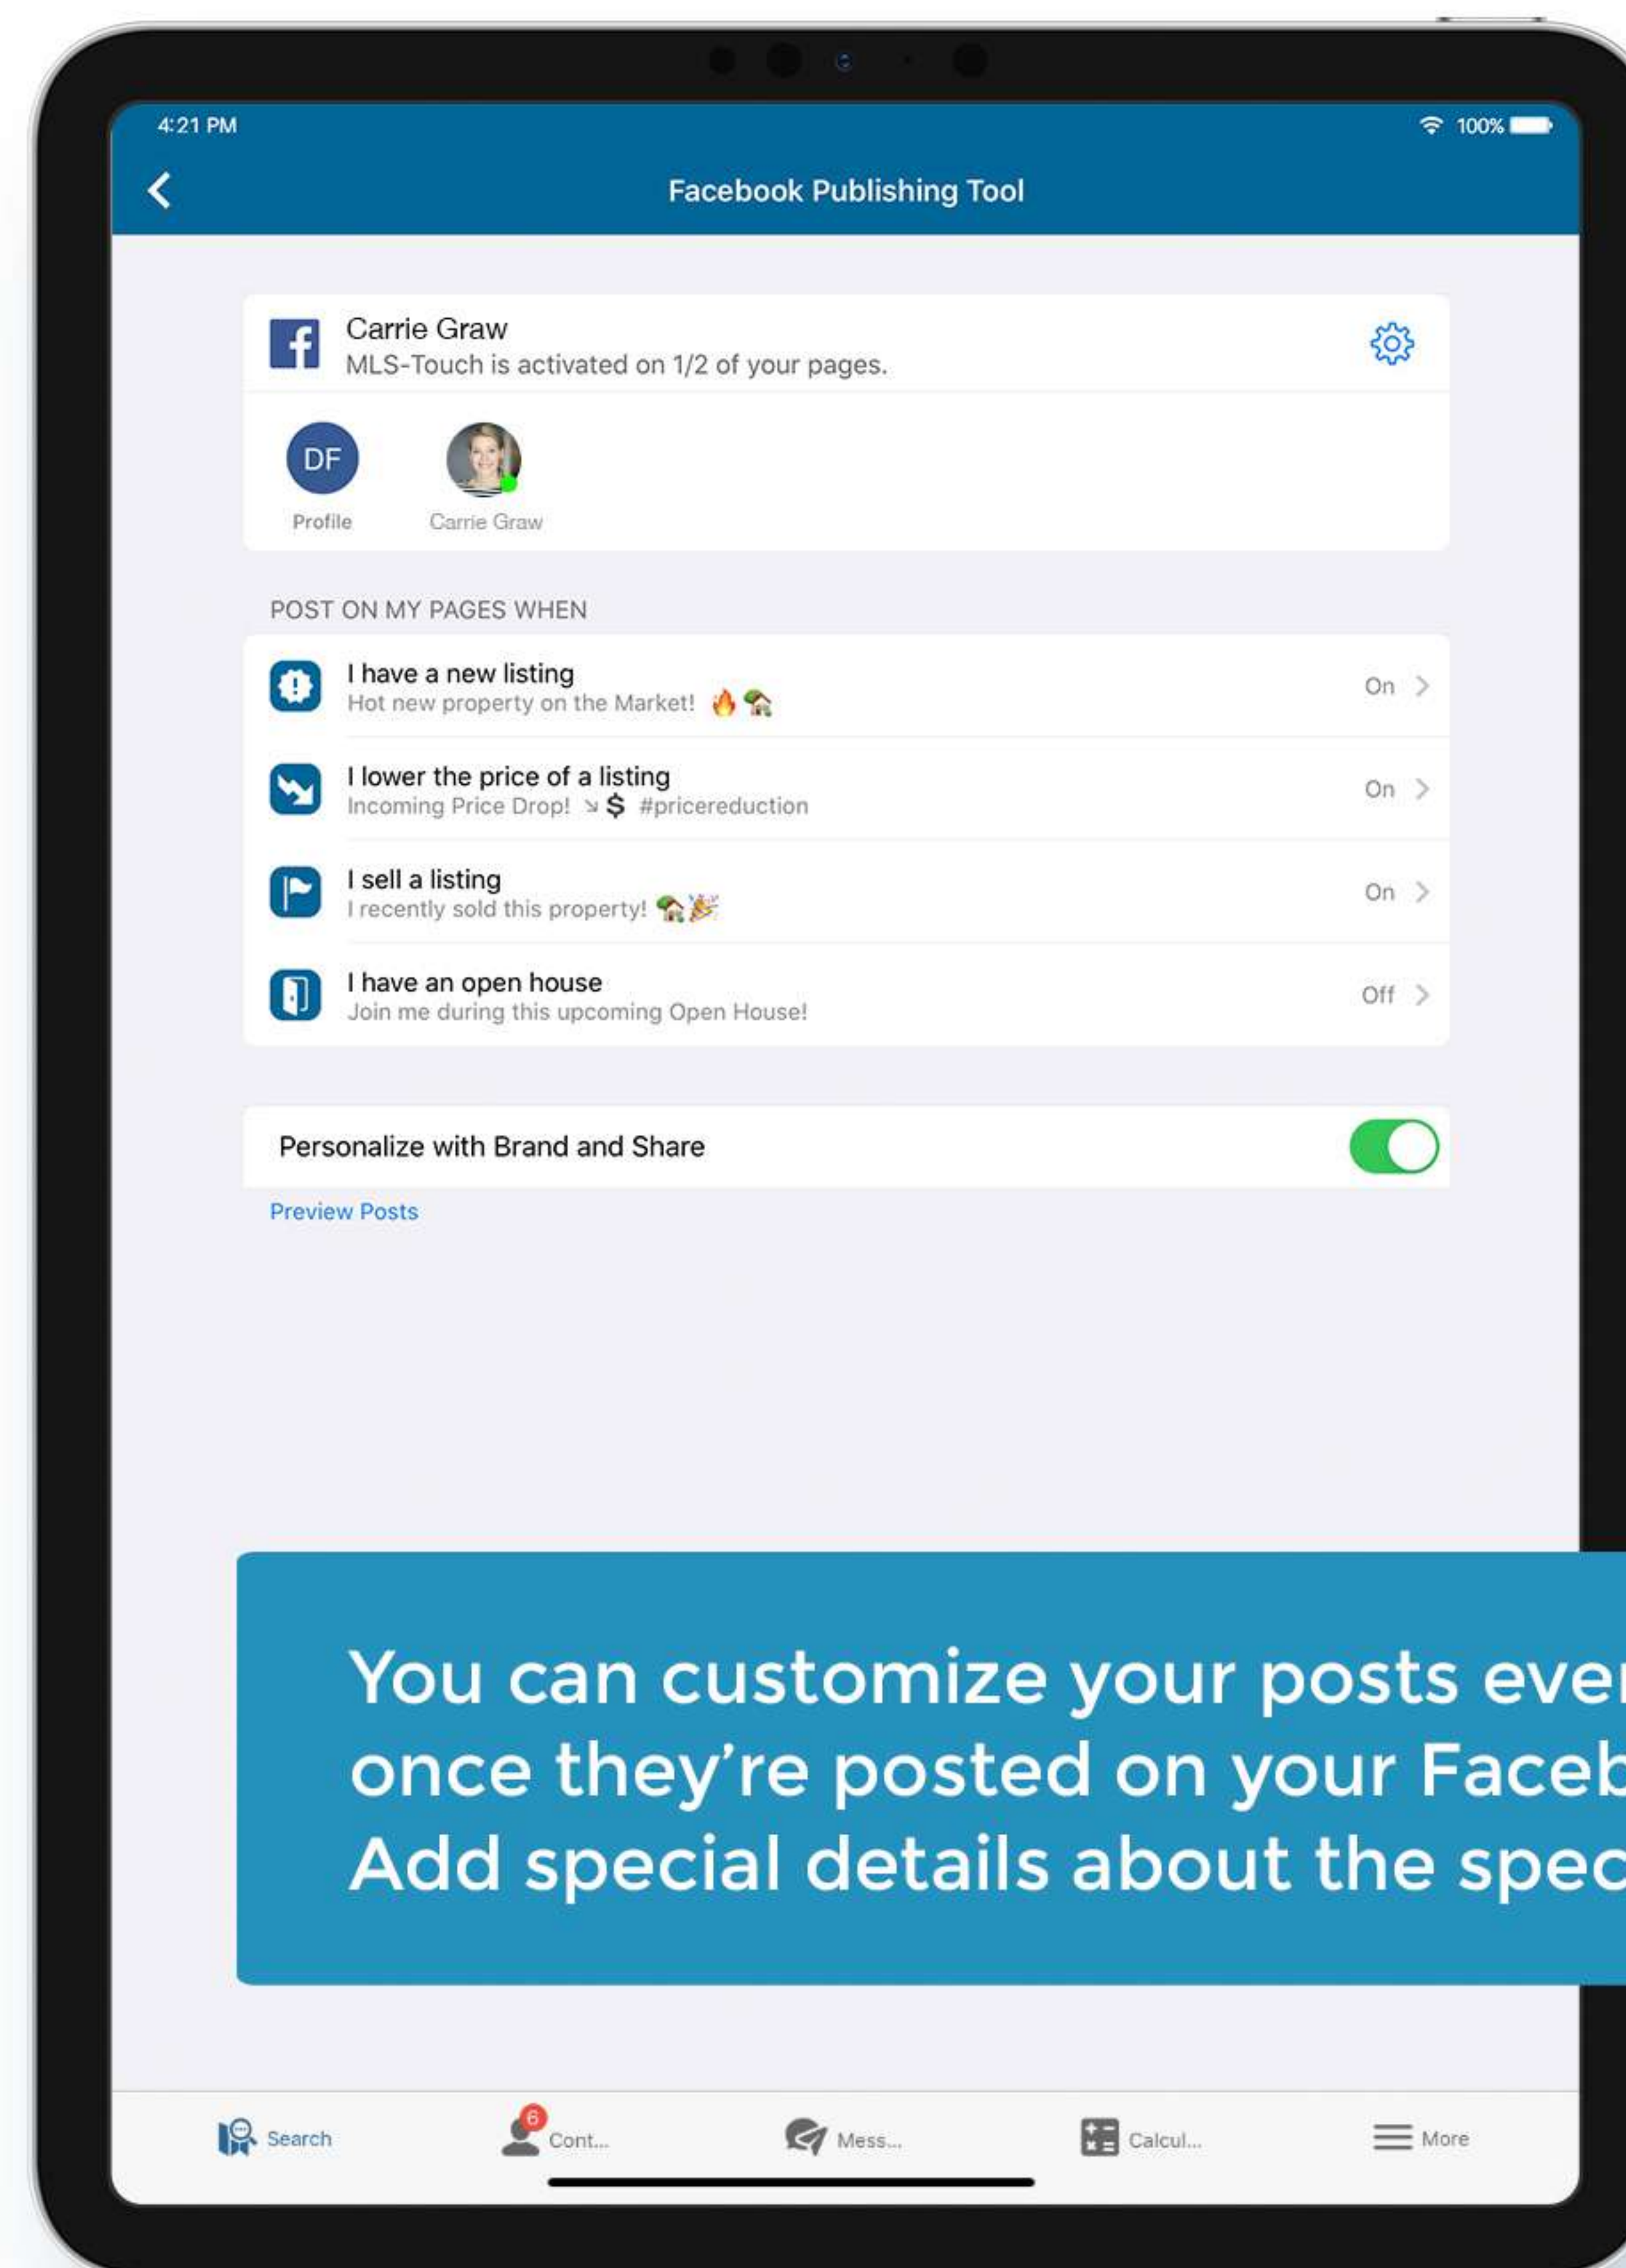

MLS-Touch will automatically post your new listings, price reductions, open houses and sold listings to your Facebook business pages. Followers can click on the post to see a branded feature sheet and request more information, or a showing.*

Access Facebook Publishing
under the More menu

Choose when to publish listings.
Add default captions.

Your listings are automatically
published

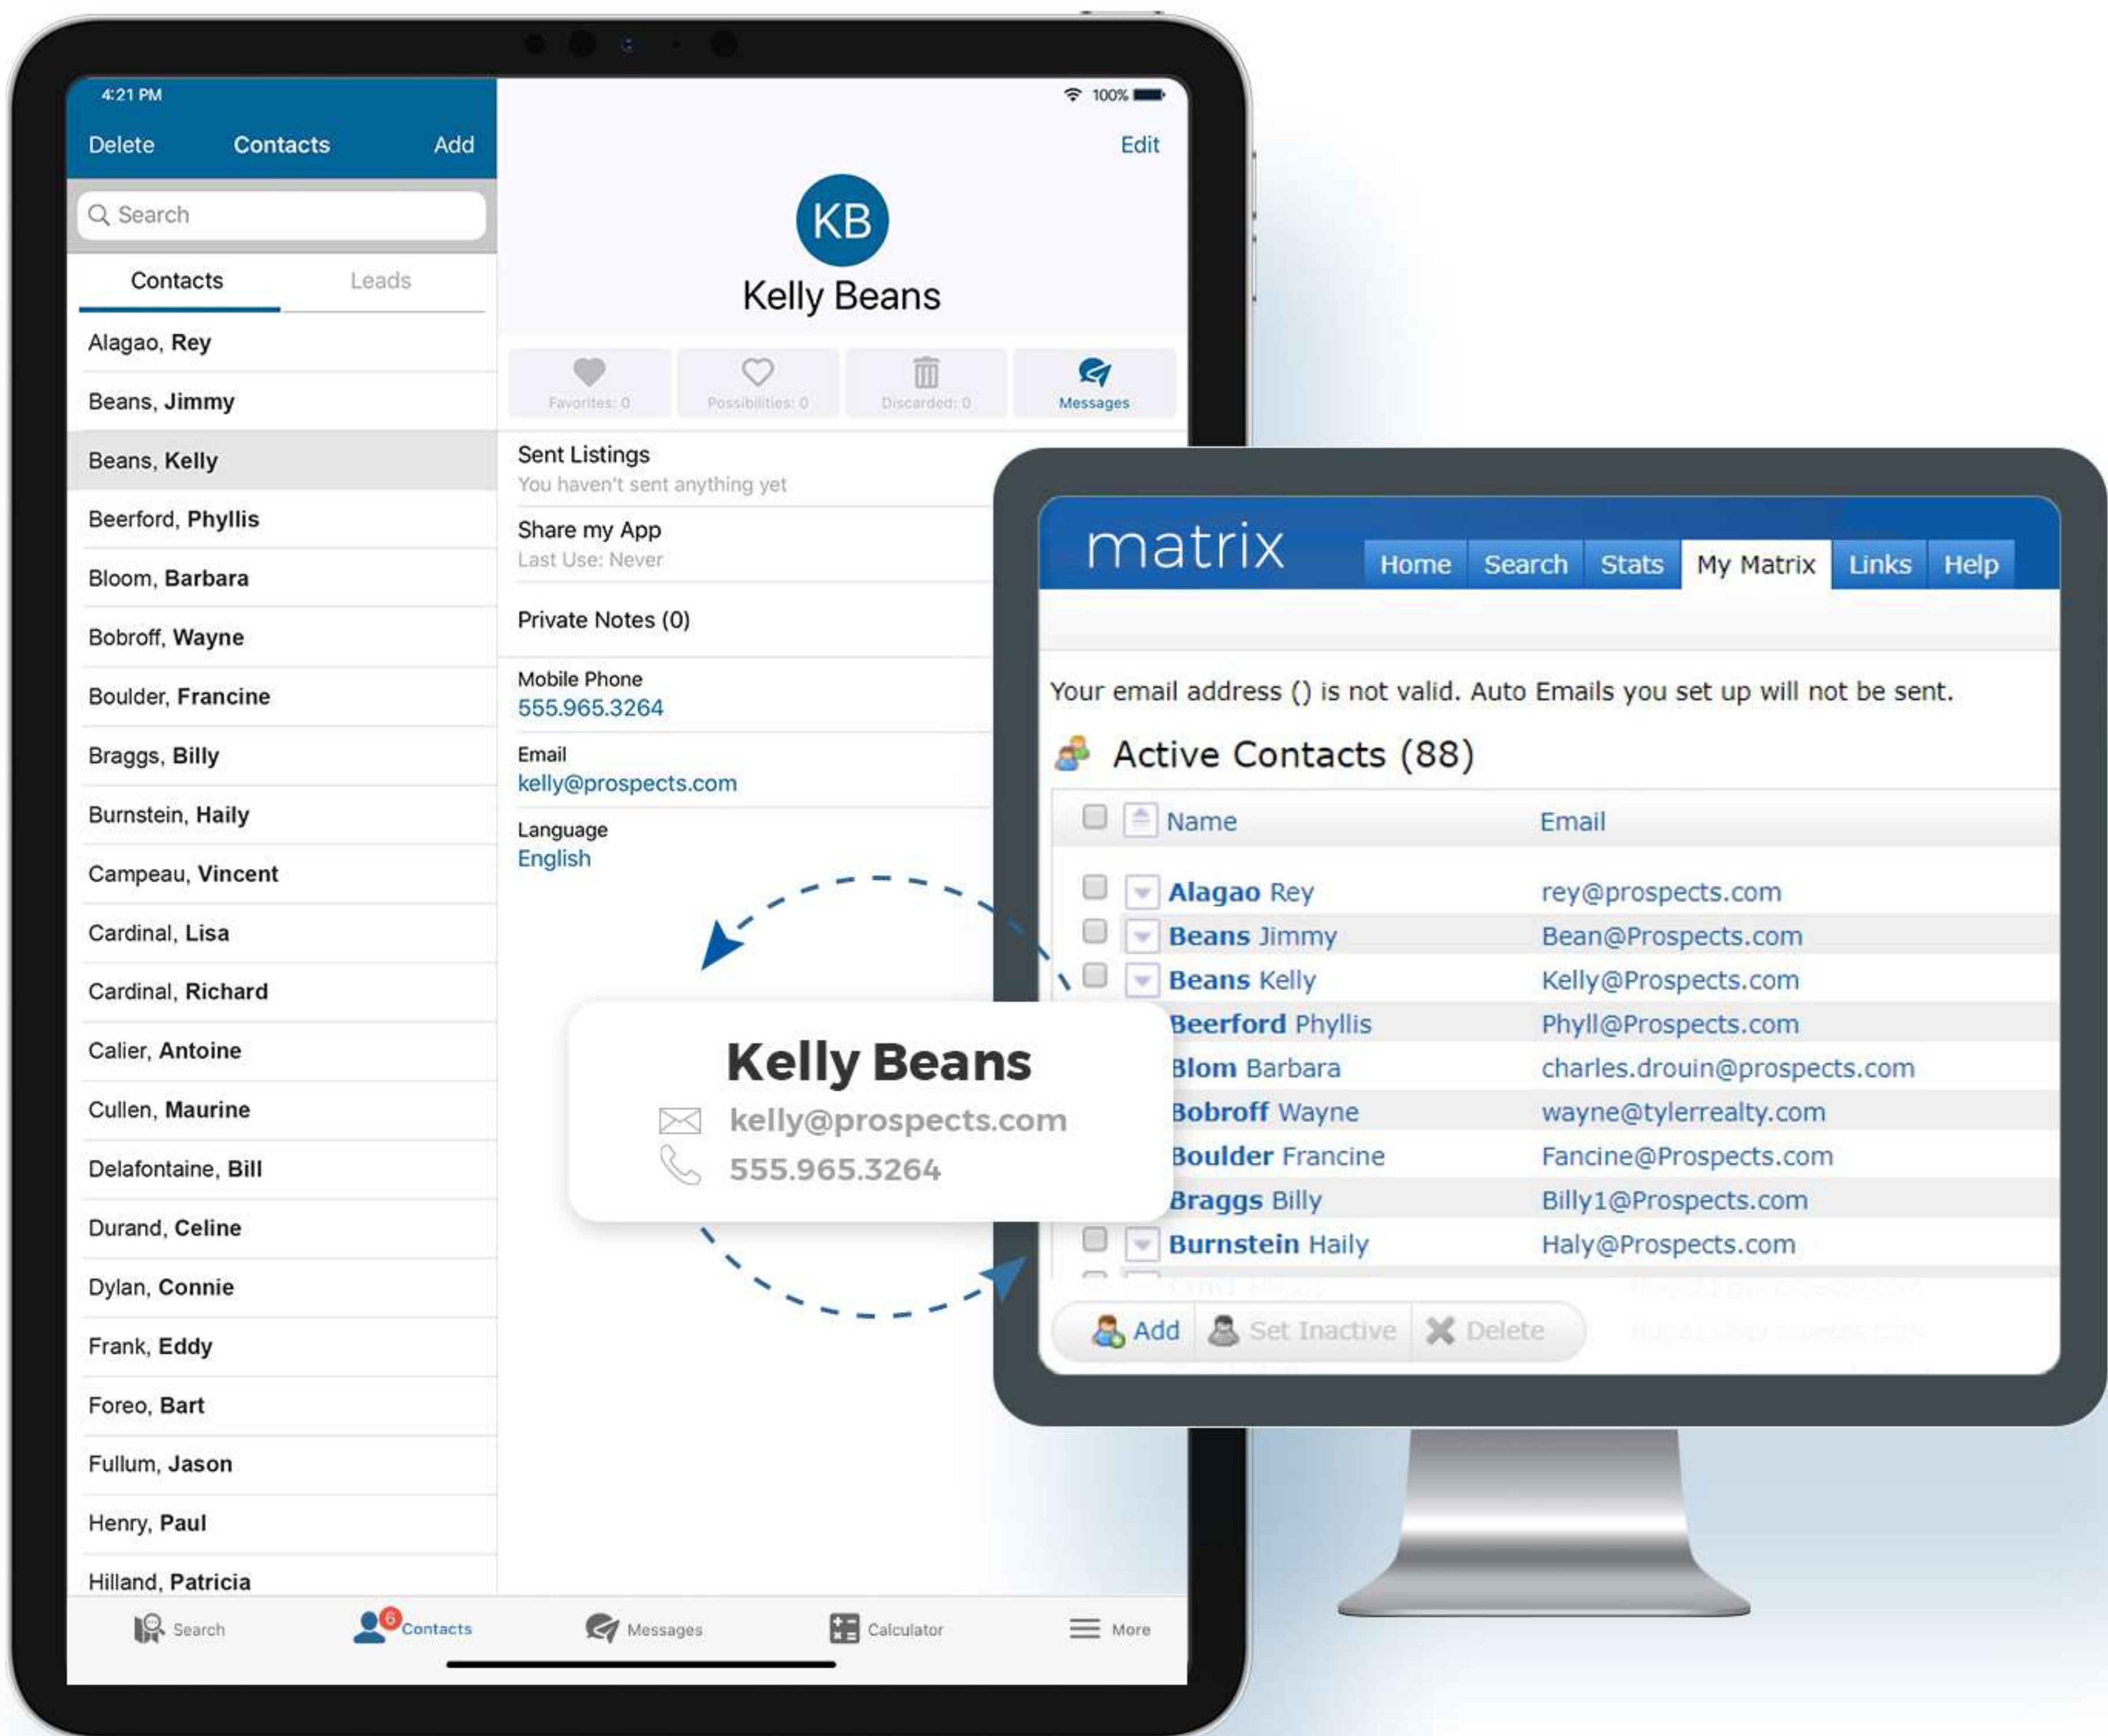

You can customize your posts even more
once they're posted on your Facebook page.
Add special details about the specific property!

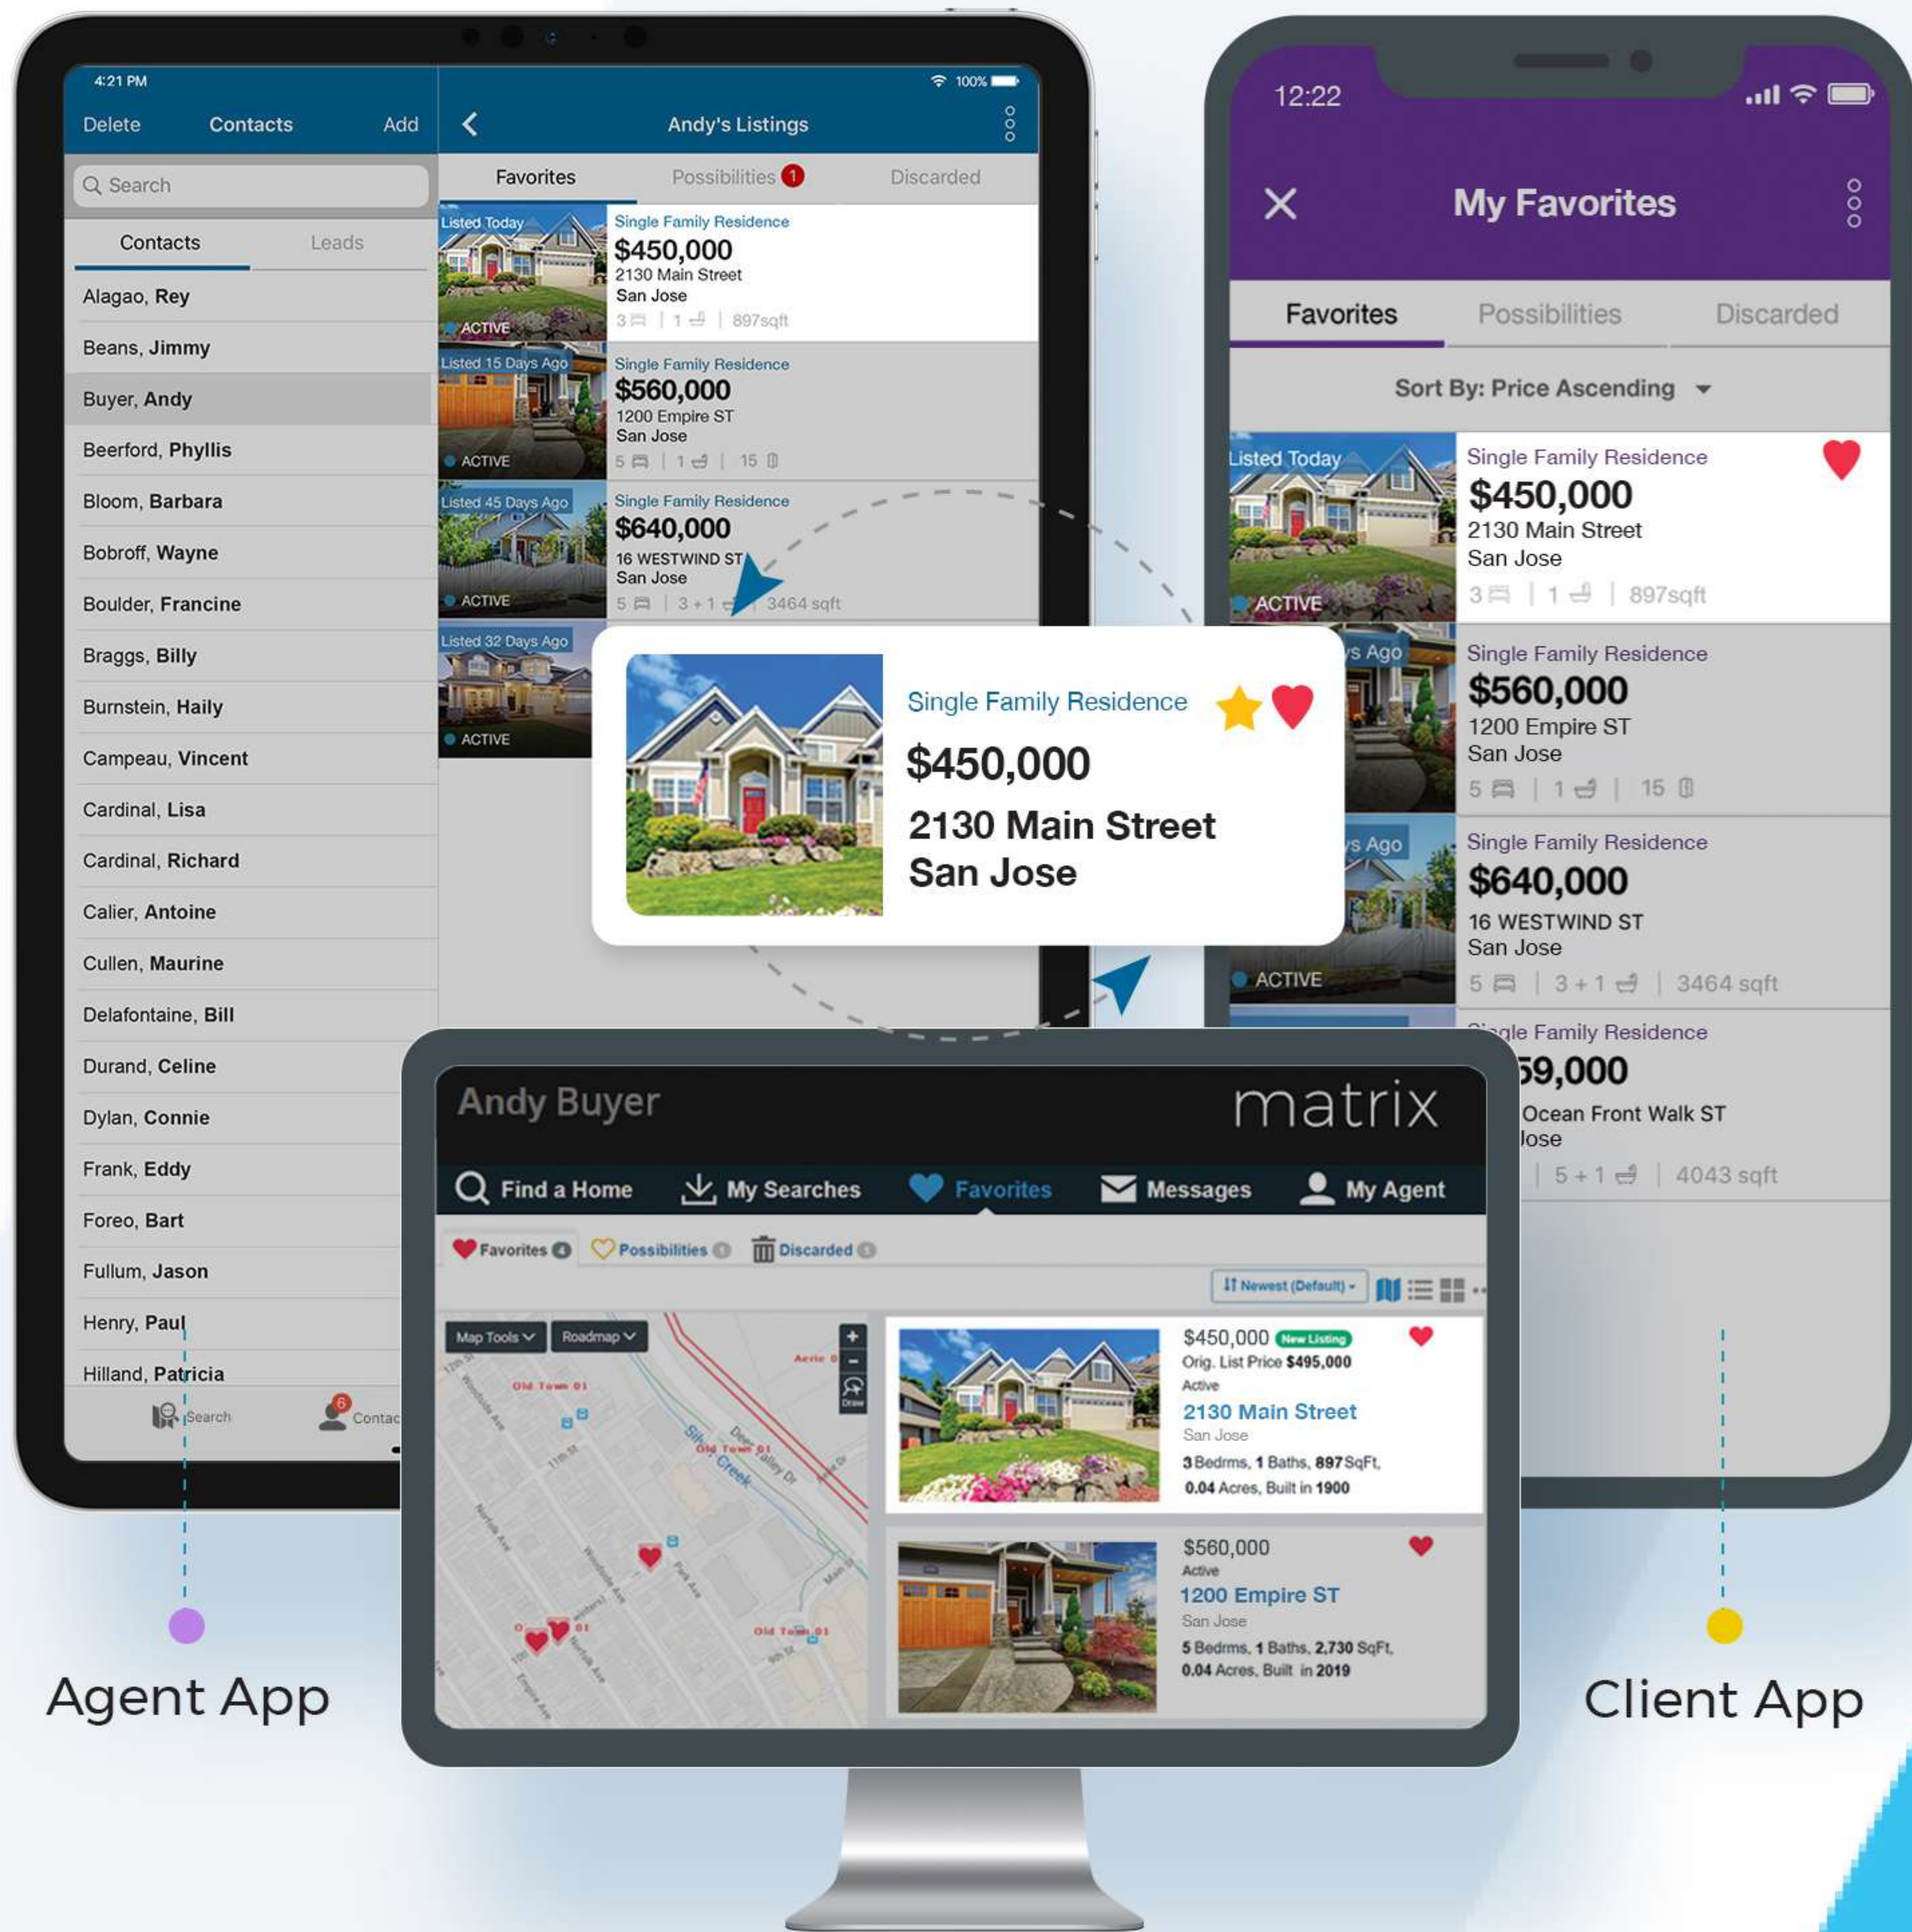

Matrix™ Integrations

MLS-Touch is much more than a search app. It's also a powerful contact manager! Thanks to our partnership with CoreLogic®, contact information, suggested listings, and Favorites and Possibilities flow seamlessly and automatically between MLS-Touch, your Branded App, Matrix and its Client Portal.*
